PURPOSE OF MANUAL

This manual has been prepared to provide some specific guidelines for all support personnel. It will be revised and updated as time demands. It should prove to be of assistance to each support personnel in understanding the primary objectives and expectations for each position, by establishing ways and means of providing better service, by establishing benefits, authorized leaves, vacation times, etc., by establishing a channel of communication, and by defining the state statute applying to suspension, demotion, and termination of support personnel.

Each support employee and each administrator should become familiar with this manual. Input on needed changes will be appreciated.

It is well that all of us remember that the specific purpose of all positions, all personnel, and the schools themselves is the educational opportunities provided young people. The enhancement will be an asset in this objective. My office, and the office of each principal, is always open for discussion with any employee. We will work with and attempt to assist you with any specific problems you may have.

Jay Vernon
Superintendent of Schools
Morrison Public School

BOARD OF EDUCATION POLICY

A copy of all board policies is available in the administration building, elementary and high school offices, and on the school website www.morrisonps.com. New policies or policy revisions may be adopted throughout the year and not all sources may be updated. The hard copy of the board policy book in the superintendent's office supersedes any other copies of board policy.

INTRODUCTION & GENERAL PROVISIONS

This handbook is designed to assist the support personnel of Morrison Public Schools in the performance of their assigned duties and responsibilities in the most efficient manner possible. It attempts to relate the policies, procedures, and major expectations of support personnel. It is the duty of each member of the staff to become fully acquainted with the contents of this handbook and to adhere to all policies and procedures of Morrison Public Schools.

PHILOSOPHY

Support personnel constitute an important and necessary part of a school's operations. The respective jobs performed by the support personnel are an integrated part of the system's operations. The best possible performance of each and every assignment is very significant to a good operations and smooth functioning school system. It is expected that each support employee will take pride in their work and put forth the necessary efforts to assure the best performance. Safety of the employee, those personnel working with and around him/her, and the students is of utmost importance. Safety rules and regulations and a high degree of common sense should be adhered to in the performance of each job. Prompt, courteous, cooperative, and efficient service can, and should, be expected in all areas of a school's operations.

SCHOOL DISTRICT'S INSURANCE POLICY COVERAGE

The school district's insurance policy provides coverage for school owned property. The school district cannot legally insure the personal property of staff or students.

PERSONNEL GOALS AND OBJECTIVES

The Board of Education recognizes that a dynamic and efficient support staff, dedicated to the best possible performance of their respective jobs, is necessary to maintain a constantly improving operation. The Board is committed to providing a coordinated staff of specially trained personnel in each respective position. Each of the respective positions and/or assignments is to be properly designed with a procedure for assessment of the overall performance of all personnel.

Additionally, the Board's specific goals are:

- to conduct an employee evaluation program that will contribute to the continuous improvement of staff performance.
- to provide, when feasible and necessary, specific training and direction that promise to improve performance, retention, and promotion.
- to recruit, select, and employ the best-qualified personnel to fill the respective support satisfaction.
- to develop the quality of human relationships necessary to obtain maximum staff performance and satisfaction.
- to deploy the available personnel and assure that they are utilized as effectively as possible within budgetary constraints.

EQUAL OPPORTUNITY

Statement of Equal Educational and Employment Opportunity: It is the policy of this school district to provide equal opportunities without regard to race, color, national origin, sex, age, disability, religion, or veteran status in its educational programs and activities. This includes, but is not limited to admission, educational services, financial aid, recruitment, employment and promotion.

STAFF INVOLVEMENT

The support staff is encouraged to participate in the formulation of recommendations for the improvement of the district's operations in their respective areas. The superintendent may establish such committees or seek whatever information is necessary to recommend rules and regulations necessary for a properly functioning operation. Support personnel that have recommendations concerning their specific assignments should make these known to their immediate supervisor and/or the superintendent. In no case should any recommendation, concern, or complaint be discussed with anyone other than the immediate supervisor and/or superintendent prior to presentation to them.

AGENDA PREPARATION AND DISSEMINATION

The superintendent, in cooperation with the board president, will prepare the agenda for a meeting of the board of education. Patrons or staff members wishing to have an item placed on the agenda must contact the superintendent or the board president in writing no later than 24 hours before the board agenda must be posted. The board agenda will be prepared according to state law and posted on the front door of the administration building at least 24 hours before the meeting. The posted agenda shall be visible outside during closed hours. Written notice of the date, time, and place of the meeting will be mailed or delivered to each member of the board and to any newspaper or other media representative that has filed a written request for such notice. In addition, the agenda for each meeting will be posted on the school district's website in accordance with the provisions of 74 O.S. § 3106.2, S.L.O. § 533.1. A schedule and information about the regularly scheduled meetings of the board shall be posted on the website. Also, names of members of the board will be posted on the website. When reasonably possible, information about special or emergency meetings shall be posted on the website.

PUBLIC PARTICIPATION AT SCHOOL BOARD MEETINGS

All regular, special and emergency meetings of the board of education shall be open to the public. The board, in its efforts to learn the viewpoints and concerns of the patrons of the district, will provide opportunities for the patrons to give input to the board. A procedure developed to allow optimum efficiency of the school board meeting as well as extensive opportunity for patron input shall be in place at all times. A public participation time will be available at all regular meetings, and at special and emergency meetings at the discretion of the board president. The president of the board shall recognize speakers, maintain proper order, and establish and comply with time limits, if needed. Board members and administrative staff are not required to respond to questions from the public, since doing so could be in violation of the Open Meeting Act. The board will not vote on items discussed on the public participation section unless the item is already on the agenda or the item meets the legal requirement of new business. However, questions may be referred to the superintendent for a later report to the board. The board may also choose to place such items on the agenda of a later meeting. The board will not hear personnel complaints unless proper legal and administrative procedures concerning complaints have been followed. No speeches for or against candidates for political office will be permitted.

PUBLIC COMPLAINTS

The Morrison Board of Education welcomes comments and suggestions for improvement from the patrons whom it serves. Constructive criticism of the schools is welcome whenever it is motivated by a sincere desire to improve the quality of the educational program or to allow the schools to do their tasks more effectively. However, the board has confidence in its professional staff and desires to support their actions in order that they are free from unnecessary, spiteful, or negative criticism and complaint. Therefore, whenever a complaint is made directly to the board as a whole or to a board member as an individual, it will promptly be referred to the school administration for study and possible solution.

Since individual board members have no authority to resolve complaints, other than by formal board action, administrators are expected to follow up on all complaint referrals and to advise the board members of the nature of the complaint and the action(s) taken. The board expects that the administration will develop a procedure for receiving complaints courteously and that it will take steps to make a proper reply to the complainant. Follow-up shall be in the form of a written memorandum to the board members.

Anonymous complaints provide no avenue for response or redress of the complaint. Therefore, it will be the policy of the board that anonymous complaints shall not be pursued. An unsigned complaint will not be read or acted upon at any meeting of the board and anonymous telephone complaints will not be brought to the board by any individual board member, administrator, or other district employee. Further, the administration will not act on any anonymous complaint.

Complaints for which specific resolution procedures are provided shall be directed through those channels. This includes complaints about personnel, complaints about instructional materials, etc. Complaints should be resolved at the lowest possible level of authority. If the complaint cannot be resolved at the building level, either party is encouraged to bring the matter to the attention of the superintendent of schools.

If all other remedies have been exhausted and a complaint cannot be satisfactorily resolved, the complaint may be appealed to the board of education. The board will hear no appeal and no charges or accusations against an employee will be investigated or acted upon unless the accusations are reduced to writing, signed by the party making the complaint, and presented to the board through the superintendent.

In addition to the above, the board will request written reports be provided to the board prior to the meeting from the following:

- The person against whom the complaint is made,
- The principal of the school involved,
- The superintendent, and
- The complainant.

Generally, all parties involved will be asked to attend the board meeting for the purposes of presenting any additional facts, making further explanations, and clarifying the issues. The board will not consider or act upon complaints that have not been explored at the appropriate administrative level or complaints for which specific resolution procedures have been established that do not include board review. If the board decides to hear the complaint, the board shall make a decision, which shall be sent to all interested parties. The board's decision is final.

RESOLVING SCHOOL-RELATED CONFLICTS

The board of education believes that the school district can operate most efficiently and can deal most effectively with problems that arise in personnel matters if the problems are resolved at the lowest level of administration possible. Therefore, the board requests that problems, which parents or students have with an individual teacher or classroom situation, be taken to the individual teacher for resolution. If that resolution is not satisfactory, the parent or guardian of the student should contact the school principal for resolution. If the results of a meeting with the principal are not satisfactory, the problem should be taken to the superintendent. If all of these avenues of conflict resolution have failed to provide a satisfactory resolution of the issue, the parent or guardian should request to be heard by the board of education at a board meeting. The school counselor may be involved at any level of the problem resolution process if circumstances dictate.

MAINTENANCE OF FACILITIES

The board of education believes that a well-maintained facility is more conducive to learning and that budgeting can be more structured and predictable with a maintenance schedule. Preventive maintenance can also save money on postponed repairs. Preventive and corrective maintenance procedures shall be developed and implemented to ensure that each site and building will be clean, in good repair and maintained with consideration for function and aesthetic value.

ASBESTOS INSPECTIONS

The Asbestos Hazard Emergency Response Act of 1986 requires the inspection of all buildings in the school district for asbestos. The district has complied with this act. A management plan documenting these inspections is on file for public review. You may examine the plan, located in the Superintendent's office and at each campus, upon request. The Morrison Public School annually notifies all parents, teachers, and other employees by appropriate handbooks. Additionally, information regarding any asbestos related activities planned or in progress, will be disseminated by flyers, handouts, etc., when they arise. The asbestos identified in our management plan will be checked regularly by an asbestos company and our staff to scrutinize any changes in the material that could cause a health hazard. We will continue to monitor the asbestos as defined by EPA guidelines. If changes occur, our asbestos coordinator will notify the appropriate people as prescribed by law.

MAINTENANCE REQUESTS

Maintenance request forms are utilized for the purpose of providing an orderly means of having specific projects and certain repairs of school equipment and property completed. It is not intended to be used for each and every job, as there are numerous jobs and repairs that will be made on a daily basis. It is to be used for specific jobs and repairs that required specific parts and items to be obtained and/or projects that are to be completed at a later date or as time permits. It can be used advantageously for small projects that could be overlooked during rushed times.

1. Maintenance request forms are located in the principals' offices or the superintendent's office.
2. All maintenance requests must be approved by either a principal or the superintendent. The superintendent's approval is required for requests that would change the configuration of a building or one that is expected to cost \$50 or more.
3. Maintenance requests will be placed in the maintenance mailboxes once approved. These boxes should be checked daily to pick up requests.
4. Once a maintenance request has been completed, it should be dated, signed, and returned to the superintendent.

SCHOOL SAFETY

Safety Program

It is the policy of the Morrison Board of Education to develop rules and procedures which will promote safety in the workplace and which will establish and maintain conditions of work that are reasonably safe and healthful for district employees. Therefore, the superintendent is directed to develop such rules and procedures in accordance with Oklahoma law and the rules of the Oklahoma Department of Labor. The superintendent will designate himself/herself or other person as a district safety coordinator. The rules and procedures developed by the superintendent and approved by this board shall be incorporated into this policy and become a part hereof.

The superintendent will establish procedures in an effort to offer reasonable protection for the safety of students, employees, visitors, and others present on school property or at school-sponsored events.

The practice of safety shall be taught in educational programs in traffic and pedestrian safety, driver education, fire prevention, emergency procedures, disaster preparedness, etc., appropriately geared to students in different grade levels. Areas of emphasis shall include, but not be limited to, in-service training, accident record keeping, plant inspection, driver and vehicle safety programs, fire prevention, and emergency procedures in traffic safety problems relevant to students, employees, and the community.

2. Student harassment, intimidation, and bullying at school;
3. Professional development needs of faculty and staff to implement methods to decrease student harassment, intimidation, and bully; and

Safety Signs

In further compliance with state law, the administrator of each school site shall post a sign in the school building which reads as follows: "Felony charges may be filed against any person committing an aggravated assault or battery upon any school employee."

Employees who are victims of assault and/or battery while performing school duties shall notify the superintendent, the building administrator, or a member of the Safe School Committee of the incident within 30 days of the incident. The building administrator or committee member shall report such incidents to the superintendent. The superintendent shall determine the action to be taken as a result of the incident. The said victim of the assault and/or battery shall be informed of the action. If the employee is not satisfied with the action, he or she may ask to be heard by the Board of Education.

The superintendent shall notify the State Department of Education of all such incidents of the previous year on July 1 of each year. The report shall include a description of the battery or assault and the final disposition of each incident.

Nothing in this policy shall be meant to prevent the school employee himself/herself from filing criminal charges.

In accordance with the policy of the Morrison Board of Education, the following regulation supports and implements the board's policy concerning workplace safety and shall apply to the safety program of this school district:

Safety Coordinator

1. A Safety Coordinator will be appointed and designated in writing. The coordinator will be responsible for administering the workplace safety program.

LINE OF AUTHORITY

The superintendent is ultimately responsible to the Morrison Board of Education for the performance, conduct, and supervision of all district employees. The supervisor of transportation/building/ grounds, the lunchroom supervisor and the building principals are responsible to the superintendent for the operation of their departments and the immediate supervision of all employees under their directions.

STAFF COOPERATIVE EFFORTS

The board of education believes that each individual employee should be highly skilled and that cooperative efforts among teachers and other employees will enhance the ability of each staff member and magnifies the effectiveness of the school district. Staff members are expected to cooperate with all employees of the school district. Staff members should assist in efficiently operating the school district so that cooperative learning programs and activities are enhanced.

COMMUNITY

Employees should make a special effort to create a good patron attitude toward the school program and other members of the school faculty. It is desired that each faculty member refuse to make any belittling statement about any other faculty member at any time or place.

TELEPHONE USE

Telephone messages will be placed in the employee's mailbox unless it is an emergency. If an employee is expecting an important phone call and will notify the office, every effort will be made to cooperate. The school telephones are to be used for SCHOOL BUSINESS ONLY.

CELL PHONE USE

School employees will not operate cell phones while driving a school vehicle or personal vehicle when transporting students on a school activity.

CHANGE OF ADDRESS/TELEPHONE

Employees will report any change of address or telephone number to the superintendent.

DUTY TIME / WORK HOURS

The duty time for support personnel will vary in accordance with the type of position held and the performance required. Total daily hours required for each position will be established. The superintendent will, after consultation with the immediate supervisor and/or building principals, establish the duty time/work hours that best fit the needs of the district and, in so far as possible the desire of employees. The superintendent may change duty time and working hours whenever he/she determines such is needed for the benefit of the district.

SALARY/PAY DATES

The board of education believes that staff personnel should be rewarded for their service. Therefore, the district will attempt to pay competitive salaries for the community in which the district is located and will make efforts to exceed those salaries whenever possible. Salaries will be paid on a monthly basis and distributed on the 15th of the month or the last working day if the 15th falls on a weekend or holiday.

SECTION 125 PLAN

The school district provides a "cafeteria" plan for the purchase of benefits by each employee. Employees that qualify (part-time positions do not qualify) may elect on an annual basis to deduct certain amounts from their salary before taxes to pay for childcare or unreimbursed medical expenses as well as options to invest in additional types of insurance and investment plans on a payroll deduction plan. Also, retirement paid by the employer on behalf of the employee is made on a pre-tax basis.

FLEXIBLE BENEFIT ALLOWANCE

A state paid statutory benefit for covering the cost of health insurance over a twelve (12) month period. If not taking health insurance but qualify, you may take the "In Lieu of FBA" benefit as taxable compensation. The dollar amount paid in health insurance premiums or taxable compensation is subject to state statutes.

APPROVAL OF LEAVE

All types of leaves require notification and approval of the school administration. A “Request for Leave” form is provided for this purpose. Support personnel will give their immediate supervisor and/or building principal as much advance notice as possible in all cases when they are going to be absent from their respective assignments. When an employee discovers in the A.M. that they will be unable to report to duty that day, they will call their immediate supervisor and/or their principal or the superintendent’s office.

ABUSE OF LEAVE PROVISIONS

Time missed for reasons other than those stipulated and/or without specific authorization will result in a full salary deduction. Continued unauthorized absences will result in disciplinary action. Abuse of any of the leave provisions will result in disciplinary action.

SICK LEAVE

Ten days sick leave shall be allowed each ten-month employee each year with cumulative time up to one hundred twenty (120) days. Those employees who are employed for twelve months will receive twelve days sick leave per year. Those employed eleven months each year shall be given eleven sick days annually. Sick leave is interpreted as the time when sickness keeps an employee from being present to conduct his or her regular daily work because of personal illness or illness of a spouse, parent of either spouse, child, or brother or sister of either spouse, grandchildren, or any other person whose relationship to the employee is such to justify the employee’s absence. If for any reason the board of education or the superintendent believes this benefit is being abused, a statement of illness from a doctor may be required to justify granting of sick leave.

Transfer of Sick Leave: Employees may transfer up to a maximum of 60 sick leave days from another school district in Oklahoma. The transfer will be allowed after completion of one year of employment in this district. Transfers must be verified in writing by the district where leave was accumulated.

Retirement Credit for Unused Sick Leave: The district will maintain accurate and up-to-date information concerning unused sick leave for purposes of teacher retirement credit. In accordance with state law and the regulations of the Oklahoma Teacher Retirement System, the total creditable service of a member who retires or terminates employment and elects a vested benefit may include up to 120 days of unused sick leave for retirement credit.

PERSONAL BUSINESS LEAVE

Each staff member will receive two personal business days of leave each year as well as one additional day for school-related activity. Requests for personal business leave shall be made in writing and in advance when possible. If not possible, then the written request should be filed within one day after returning to work.

EMERGENCY LEAVE

Each member of the staff shall receive two (2) emergency days of leave each year. The superintendent shall approve all emergency leave and has the authority to ask for a written or oral explanation of why the leave shall be classified as emergency. The superintendent may approve or disapprove the request based on the reason given.

JURY AND COURT LEAVE

The school district shall grant a staff employee leave for jury service or as a witness subpoenaed in a criminal, civil or juvenile proceeding. When an employee serves on a jury or is called as a witness as described above, he or she will be paid the difference between the amount received for jury duty and the amount he or she would have earned at his or her regular rate of pay for each day served on the jury or as a witness. To receive pay for this duty, the employee must show a statement from the clerk of the court indicating the amount paid the employee.

MILITARY LEAVE

Military leave will be granted in accordance with state law with tenure and retirement protected.

VACATION

A vacation schedule will be arranged for each staff member who qualifies for vacation time. Vacations are to be taken at a time, which is mutually agreeable with the superintendent and the employee. When a mutually agreeable time cannot be arranged, the needs of the school must receive first consideration in setting the day(s) of vacation.

After one year of continuous service prior to July 1, staff personnel who work twelve (12) months a year shall receive one week (5 working days) paid vacation; after two years staff personnel shall receive two weeks (10 working days); and after four years staff personnel shall receive three weeks (15 working days). Vacation days may not be carried over from one year to the next.

Any employee who is paid for less than forty (40) hours in any pay period other than the first pay period of employment will not receive credit for that pay period in computing his/her vacation benefits at the end of the qualifying period of June 30.

HOLIDAYS

Support personnel whose work year includes the following holidays, will receive pay for the stated holiday. Holidays recognized for this purpose include: Independence Day, Labor Day, Thanksgiving Day, Christmas Day, New Year's Day, and Memorial Day.

At the discretion of the superintendent, additional days may be allowed during the time school is closed for these holidays. The condition of the facilities, grounds, and equipment, jobs to be performed and extra time that has been worked, etc., will all be considered when reviewing possible extra days off.

Certified staff professional days are not holidays and all support personnel, with exception of bus drivers and cooks, will be expected to be on duty.

PROFESSIONAL LEAVE

When approved by the board, staff personnel will be allowed professional absences without loss of pay or other leave days.

TRAVEL AND EXPENSE REIMBURSEMENT

Staff personnel may be reimbursed for itemized and documented travel expenses provided such expenses are related to the employee's duties. However, if the employee attends such an activity on personal business leave or on leave without pay, then the school district is not required to compensate the employee for travel or documented expenses. The board prior to the event must approve the function and the cost to be reimbursed. Staff members shall submit in writing to the superintendent the need for reimbursement. Notice must be given in time for the superintendent to submit this to the board and the board to give approval. If sufficient time to notify the board is not available, the superintendent may give temporary approval.

Only those items for which there is itemized documentation may be reimbursed. However, at its discretion, the board may pay such expenses on a per-diem basis, as long as such does not exceed the amount permitted for state employees. If the state travel reimbursement schedule is used, travel shall be reimbursed at fifty six cents per mile (See State Travel Reimbursement Act.) according to mileage indicated on an Oklahoma map.

Travel expenses and other related expenses of prospective employees for sponsored visits to the school district shall be paid at the discretion of the board under the same guidelines as those for school employees.

School district vehicles will be utilized for travel purposes when possible. If personal vehicle use is authorized, employees will be reimbursed at the rate of fifty and half cents per mile (gasoline NOT included) OR the school credit card will be used to furnish gasoline. Payment will not be made for both mileage and gasoline. Use of personal vehicles must have prior approval of the superintendent. No reimbursement will be paid without proper receipts for expenses. All claims for reimbursement must be turned in immediately upon completion of travel.

MEAL REIMBURSEMENT

For the purpose of reimbursing necessary travel expenses of employees and members of the board, the board of education shall follow the legislated guidelines. The employee or board member shall present itemized and documented receipts for each expenditure that is to be reimbursed. In compliance with state law, such documentation will be equal to or greater than the requirements specified by law for state employees in the State Travel Reimbursement Act. Travel expenses and other related expenses of prospective employees for sponsored visits to the school district shall be paid at the discretion of the board or under the same guidelines as those for school employees. All meal expenses must be approved from the superintendent in advance for reimbursement.

FAMILY MEDICAL LEAVE ACT

If the district employs 50 individuals, the district is required to provide eligible employees with leave under the auspices of the Family Medical Leave Act (FMLA).

In order for the school district employees to qualify for FMLA leave, three conditions must be met:

1. The school district must have 50 or more employees on the payroll for 20 workweeks during the current or preceding calendar year.
2. At least 50 employees must work within 75 miles of the district's worksite for the district to be covered; and
3. The employee must have worked for the school district for at least 12 months and for at least 1,250 hours during the last year.

Eligible employees are those district employees who meet the above requirements and who request leave for one of the following reasons:

1. Birth, adoption, or foster placement of a child by an employee;
2. To care for a spouse, son, daughter, or parent who suffers from a severe health condition; or
3. For a serious health condition the employee is experiencing.
4. To care for a covered family servicemember with a serious illness or injury incurred in the line of duty on active duty; or
5. To use for any qualifying exigency arising out of the fact that a covered military member is on active duty or called to active duty status in support of a contingency operation.

Before an employee will be placed on unpaid family leave, the employee must first exhaust any accumulated sick leave, personal leave, and vacation time. Such sick leave, personal leave, and vacation time will be deducted from the 12 workweeks of eligibility. If both spouses are employees of this district, their total leave in any 12-month period will be limited to 12 weeks if the leave is taken (1) for the birth or adoption of a child or (2) to care for a sick parent. The right to take leave for the birth or placement of a son or daughter expires 12 months after the birth or placement with the employee. Eligible employees who are family members of covered servicemembers with a serious illness or injury incurred in the line of duty on active duty will be able to take up to 26 workweeks of leave in a single 12-month period. Sick leave, personal leave, and vacation leave will be deducted from the 26 workweeks of eligibility.

If the superintendent deems it necessary or desirable, an employee may be required to provide certification from a physician of the necessity of any leave requested. The superintendent may require certification as to the date the medical condition began, the anticipated duration and prognosis, and medical facts about the medical condition and treatment.

If the superintendent deems it necessary or desirable, the superintendent may require a second opinion by a physician selected and paid for by the district. If the original opinion and the second opinion conflict, the district may require a third opinion at the district's expense. The conclusion of the third opinion will be final and binding upon the employee and the district.

If family leave is granted for continuing health condition, subsequent recertification may be required at the discretion of the superintendent.

Intermittent leave may be taken in lieu of continuous leave for the birth or adoption of a child only with the concurrence of the district. The employee must provide 30 days of advance notice or as many days of advance notice as are practical. Leave taken for serious health conditions of the employee or an eligible member of the employee's family may be taken intermittently without district concurrence. However, the employee may be transferred to another position that can better accommodate the employee's recurring absences. Such transfer will not reduce the employee's pay and benefits.

Upon completion of family leave, the employee will be entitled to return to the former position of employment with equivalent benefits and pay without loss of seniority or tenure. The employee will be deemed to be at work for the purposes of tenure accrual and retirement vesting and participation. The district will maintain the employee's medical insurance coverage. If the employee contributes toward the premiums, the employee will continue to pay the same rate while on leave.

Note: During the FMLA leave, a board has no obligation to continue to give an employee any benefits other than health insurance, and those benefits thus may be discontinued during the leave. A board may decide whether to extend continuation of coverage to life, dental, and vision insurance, but should know extensions are not required by the FMLA and there can be a substantial cost to the district in doing so. One option that is cost effective and still protects employees while they are on unpaid leave is to permit employees to retain ancillary insurances by reimbursing the district for the full cost of the premiums during the leave period. No benefits or seniority accrues during leave. The district may require documentation from the employee's physician that the employee is able to return to work. FMLA will run concurrently.

FAIR LABOR STANDARDS ACT

The Morrison Board of Education will comply fully with the Fair Labor Standards Act, its regulations, and relevant court decisions. This district will inform employees of the Act through proper posting of information as disseminated by the U.S. Department of Labor. The district will cooperate with all state agencies and maintain compliance. The superintendent is directed to prepare a regulation supporting this policy and implementing the provisions of the Fair Labor Standards Act subject to approval of this board.

REGULATION FAIR LABOR STANDARDS ACT

In accordance with the policy of the board of education, the following regulation shall insure compliance with the Fair Labor Standards Act within this school district.

1. This district will pay all nonexempt employees at least the federal minimum wage and time and a half for all hours worked which exceed 40 hours per week, or permit compensatory time off at the rate of one and one-half hours off duty for each overtime hour worked. Provided, however, that for any overtime hours to be credited for overtime pay such overtime hours must be approved in advance by that employee's designated superior.
2. This district will inform employees of the law by posting information disseminated by the U.S. Department of Labor.
3. This district shall establish, through separate administrative regulations, the process of time keeping and procedurally complying with the Act.
4. The district establishes the following class guide for job classification of exempt and nonexempt employees as defined in the Act.

Exempt Personnel:

- All personnel having certification from the State of Oklahoma.

Nonexempt Personnel:

- Bus Drivers
- Cafeteria Employees
- Custodians
- Maintenance Personnel
- Secretaries

FAIR LABOR STANDARDS ACT - PROCEDURES

It is the intent of this school district to fully comply with the Fair Labor Standards Act (FLSA), its regulations, and relevant court decisions and to cooperate with state agencies in an effort to maintain compliance with the FLSA. The following procedures and guidelines are to be followed in each department to ensure employees are properly compensated for approved hours worked in excess of the established workweek as required by the provisions of the FLSA.

Definitions

“Overtime” is defined as authorized, compensable work time in excess of forty (40) hours per workweek.

A “work week” for full-time nonexempt employees is forty (40) hours during one consecutive seven-day period beginning at 12:01 a.m. on Saturday and ending at 12:00 midnight on the following Friday.

“Non-covered employees” are those who are excluded from the definition of “employee” within the meaning of 29 USCA §203(e) (Supp. 1990)

“Covered employees” are those who meet the definition of “employee” within the meaning of 29 USCA §203(e) (Supp. 1990). Covered employees will be either exempt or nonexempt employees.

An “exempt employee” is a covered employee who is exempt from FLSA by virtue of meeting one of the tests for exemption.

A “nonexempt employee” is a covered employee who does not meet one of the tests for exemption.

Exemptions

The FLSA exempts certain groups of covered employees from coverage. The following categories of exemptions are established:

Executive:

- Superintendent
- Assistant Superintendent
- Treasurer

Professional:

- Teachers
- Career Counselors
- Guidance Counselors
- Registered School Nurse

Record Keeping

Records as required by law will be kept for both exempt and nonexempt employees.

Nonexempt employees will record time as follows:

1. Full-time and part-time nonexempt employees will record time by using the district time sheets.
2. Time sheet will be approved and signed by supervisor at the end of each pay period before payroll for time sheet is processed.

Overtime

1. Work Week Adjustment. Any supervisor who requires a nonexempt employee to work in excess of a regular eight hour work day may grant relief time later in the same week in order to avoid overtime. The amount of excess time worked in one day must be at least fifteen minutes for the employee to be awarded release time. Work time in excess of an eight hour day is not considered overtime, and a grant of release time in order to make a work week adjustment will not be made at one and one-half. Release time will not be considered in calculating the hours for which the employee is entitled to overtime compensation.

2. Method of Overtime Compensation. The school district has the option of compensating employees for overtime by payment of money or by grant of compensation time.
 - a. Payment of Money. Payment for overtime compensation will be made at one and one-half times the regular rate of pay of the employee to be compensated.
 - b. Compensation Time. The school district, at its discretion, may award compensation time in lieu of overtime compensation pay.

This portion of this policy shall be deemed to be incorporated as a part of each employee's employment agreement with the school district.

3. Time of Payment.
 - a. Overtime compensation in one week will be paid on the regular payday for the period in which the workweek ended as far as is practicable. When the amount of overtime is not determined, the school district will pay as soon after the regular payday as is possible, which in most cases will be the next payday.
 - b. When compensation time is awarded in lieu of overtime pay, compensation time must be used within a reasonable period and in no event later than the end of the next day period. A request for use of overtime compensation time will be granted if it is not unduly disruptive of operations.
4. Termination of Employment. If employment with the school district is terminated by either the school district or an employee, the employee will be compensated for any unused accrued compensation time. The monetary value of unused compensation time will be calculated according to one of the following methods:
 - a. The employee will be compensated at the average regular rate of pay received by the employee during the last three years of employment; or
 - b. The employee will be compensated at the final rate of pay.

The rate, which yields the most money for the employee, will be used.

Compensable Overtime

An employee will be compensated for all authorized time spent in physical or mental exertion controlled or required by the school district and pursued necessarily and primarily for the benefit of the school district or its business. The following are examples of non-compensable time:

1. Absences (sick leave, holidays, vacations, funerals, and weather days).
2. Jury duty.
3. On call time where the employee is on call for the employer but is not restricted in activity.
4. Commuting time between home and job.
5. Training or school time where the employee on his or her own initiative attends school unrelated to regular duties and which involve no productive work.
6. Non-duty time when living in a residence provided by the school.
7. Scheduled time in between splits in shifts long enough to allow the employee to use for personal activities or work voluntarily substituting for another employee.
8. Meal periods lasting longer than one-half hour where the employee has no duties.
9. Unauthorized overtime.

SUPPORT PERSONNEL SUSPENSION, DEMOTION OR TERMINATION

The Morrison Board of Education has adopted the following procedure for the suspension, demotion, or termination of support personnel in accordance with Title 70 of the Oklahoma Statutes, Sections 6-101.40 through 6-101.47.

For the purposes of this policy a "support employee" means a full-time employee as determined by the standard period of labor which is customarily understood to constitute full-time employment for the type of services performed by the employee who is employed a minimum of one hundred seventy-two days and who provides those services which are not performed by certified teachers, principals, superintendents or administrators and which are necessary for the efficient and satisfactory functioning of a school district.

No support employee who has been employed in the school district for more than one year may be suspended, discharged, or non-renewed except within the provisions of this policy. However, this policy shall not be construed to prevent layoffs or reductions-in-force for lack of funds or work.

When the immediate suspension of a support employee is in the best interest of the school, the superintendent may suspend the employee with or without pay without a hearing. If an employee is suspended for a period exceeding 10 days, the superintendent shall initiate termination proceedings immediately upon the beginning of suspension. However, in a case involving a criminal charge, the suspension may be delayed until the case is adjudicated at trial. Nothing herein shall prevent proceeding against the employee for termination of employment during or after the suspension.

Prior to any demotion, termination, or non-renewal and after any suspension, the support employee shall receive notice of his or her right to a board hearing if so requested. Distribution of this policy to support personnel, verified by employee signature, shall serve as notice that such employees are entitled to a hearing before final termination of employment. Employees will be notified by certified mail of board actions to demote or terminate employment, and the support employee must request a hearing by certified mail to the board clerk within 10 working days of said notice or the employee shall be deemed to have waived his or her right to a hearing.

If a hearing is requested, the hearing shall be conducted at the next succeeding regular meeting of the board if the request is received by the board clerk at least 10 days prior to such meeting. However, a special meeting may be conducted if requested by the employee or at the discretion of the board of education, which special meeting shall be conducted no sooner than 10 days nor later than 30 days after receipt of the hearing request. The decision of the board shall be final.

The procedures of this policy only protect employees who have employed more than one year immediately preceding adverse employment action and are suspended or discharged during a contractual period of employment, or are non-renewed.

Morrison Public Schools Support Staff Handbook

In accordance with Title 70 of Oklahoma Statutes Sections 6-101.40 through 6-101.47, the board hereby adopts the following causes for suspension, demotion, termination, or non-renewal of support personnel.

1. Leaving workstation without authorization prior to lunch periods or end of workday.
2. Excessive unexcused absenteeism.
3. Chronic absenteeism for any reason.
4. Excessive tardiness.
5. Persistently wasting time or distracting others during working hours.
6. Leaving work area during working hours without proper notification and permission.

SUPPORT STAFF REDUCTION IN FORCE

In the event it becomes necessary to reduce the support personnel staff because of diminished resources, decline in enrollment, consolidation of programs or positions, elimination of programs, or other circumstances determined by the board of education, the following philosophy will prevail:

"This school district exists to provide the very best quality of education possible for the student; therefore, the board of education will determine which staff members can best serve the needs of the student."

The position, or program, will be the determining factors for what will be eliminated. The board of education will attempt to reduce staff by normal attrition and, second, by the following:

1. Longevity of employment in the district.
2. Best-qualified employee for the position needed.
3. Re-employment of the above-indicated staff will be in reverse order of dismissal if that individual is available when needed.

24/7 SMOKE FREE/TOBACCO FREE ENVIRONMENT POLICY

Smoking, distribution, and the use or possession of tobacco or tobacco products or paraphernalia used with tobacco and tobacco products is prohibited on school property, in school vehicles, or at or going to and from any school-sponsored or authorized function.

It is specifically directed that this ban on the use of tobacco products will be in effect 24 hours a day, seven days a week, and will apply to all students, employees, visitors, and anyone providing service to the schools with the exception of training provided by Meridian Technology Center as required by government contract. When required by a government contract, the designated smoking area must be away from general traffic areas and completely out of sight of children under eighteen (18) years of age and can be used only by adults attending those training sessions.

Additionally, students are prohibited from use or distribution of, tobacco products or simulated tobacco products in school buildings, on school grounds, in school-owned vehicles, and at all school affiliated functions on or off school campus.

Definitions:

1. "School Property" is defined as all property owned, leased, rented or otherwise used by any school in this district, including but not limited to the following:
 - a. All interior portions of any building or other structure used for instruction, administration, support services, maintenance or storage.
 - b. All school grounds over which the school exercises control including areas surrounding any building, playgrounds, athletic fields, recreation areas and parking areas.
 - c. All vehicles used by the district for transporting students, staff, visitors, or other persons.
2. "Tobacco" is defined as cigarettes, cigars, pipe tobacco, snuff, chewing tobacco and all other kinds and forms of tobacco prepared in such manner to be suitable for chewing, smoking, or both.
3. "Simulated Tobacco Products" are defined as products that imitate or mimic tobacco products, including, but not limited to cloves, bidis, kreteks, and vapor smoking with/without nicotine.
4. "Use" is defined as lighting, chewing, dipping, inhaling, or smoking any tobacco as defined within this policy.

Advertising of tobacco products on school property, school publications, and video-TV productions is prohibited. This prohibition also includes gear, paraphernalia, clothing, etc. that display and/or promote tobacco products.

Signs will be posted in prominent places on school property to notify the public that smoking or other use of tobacco products is prohibited. The success of this policy will depend on the cooperation and consideration of smokers/tobacco users and non-smokers/tobacco users. All individuals on school property share in this responsibility for adhering to and enforcing this policy. Those found in violation will be informed that they are in violation of board policy, and in the case of tobacco and/or tobacco products, state law. Any individual who observes a violation on school property may report it in accordance with the procedures below:

Students – Any violation of this policy by students will be referred to the site administrator. Site administrators shall inform both students and parents that failure to comply with the policy may result in confiscation of paraphernalia and/or suspension from classes and school activities.

Employees – Any violation of this policy by staff will be referred to the appropriate supervisor. Continued violations will constitute willful neglect of duty and will be dealt with accordingly based on established policies and procedures for suspension, demotion, dismissal, and non-renewal of employee.

Visitors and General Public – Visitors who are observed smoking or using tobacco products on school district property will be asked to refrain from smoking or using tobacco on school property. If the individual fails to comply with the request, such violation of policy may be referred to the site administrator or other school district supervisory personnel responsible for the area or program during which the violation occurred. The site administrator or supervisor shall make a decision on further action that may include a directive to leave school property. Repeated violations may result in a recommendation to the Superintendent to prohibit the individual from entering school district property for a specified period of time. If deemed necessary by the school administration, local law enforcement officials may be called upon to assist with enforcement of this policy with regard to removal of violators of this policy.

DRUG-FREE WORK PLACE

In recognition of the clear danger resulting from drug abuse and in a good faith effort to promote the health, safety, and welfare to employees, students, and the community as a whole, it shall be the policy of the board of education to provide a drug-free workplace in compliance with the Drug-Free Schools and Communities Act Amendment of 1989 (P.L. 101-226).

Employees are hereby notified that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in all workstations in the school district. Such action is prohibited by any employee during that employee's work hours or in the performance of any duties for the school district.

Employees are further notified that, as a condition of their employment, they are required to abide by these requirements and that violation of any requirement will result in appropriate action, probation, suspension, or termination. Additionally, it shall be the responsibility of the employee to report to the district any and all convictions of a criminal drug statute violation occurring in the workplace no later than five days following such conviction. Appropriate personnel action shall follow such disclosure within 30 days of such notice.

The board will not tolerate employees who use, possess, manufacture, distribute or make arrangements to distribute illegal drugs while at work or on school district property. Further, outside conduct of a substance abuse-related nature, which affects an employee's work, is prohibited. The board insists that all employees report to work without any alcohol or illegal or mind-altering substances in their systems.

Employees must inform their supervisor when they are legitimately taking medication, which may affect their ability to work, in order to avoid creating safety problems and violating the federal laws.

Because it is the policy of the board of education to promote prevention, information about a drug-free awareness program will be made available to inform employees about (1) the dangers of drug abuse in the workplace, (2) the district policy of maintaining a drug-free workplace; (3) available drug counseling, rehabilitation and employee assistance programs, and (4) penalties that may be imposed upon employees for drug abuse violations occurring in the workplace.

It is a requirement of the board of education that each current employee shall be notified of this policy in writing and future employees shall be notified in writing upon employment. This statement shall be published in other appropriate documents for proper distribution and posted at appropriate work sites.

Compliance with standards of conduct as stated in this policy is mandatory.

**TESTING EMPLOYEES AND APPLICANTS FOR EMPLOYMENT
(OTHER THAN BUS DRIVERS)
WITH REGARD TO THE USE OF ALCOHOL AND ILLEGAL CHEMICAL SUBSTANCES**

The board, with the intent that all employees have notice and knowledge of the ramifications concerning alcohol and illegal chemical substance use, possession, purchase, sale or distribution when the employee is on duty or on school property, adopts the following policy on Testing Employees and Applicants for Employment (Other Than Bus Drivers) With Regard to the Use of Alcohol and Illegal Chemical Substances.

Statement of Purpose and Intent

1. The safety of students and employees of the school district is of paramount concern to the board.
2. An employee who is under the influence of alcohol or an illegal chemical substance when the employee is on duty or on school property poses serious safety risks to students and other employees.
3. The use of alcohol and illegal chemical substances has a direct and adverse effect on the safety, personal health, attendance, productivity and quality of work of all employees and the safety of all students.
4. Scientific studies demonstrate that the use of alcohol and illegal chemical substances reduces an employee's ability to perform his or her job beyond the time period of immediate consumption or use.
5. The board recognizes that all employees have certain personal rights guaranteed by the Constitutions of the United States of America and the State of Oklahoma as well as by the Oklahoma Standards for Workplace Drug and Alcohol Testing Act ("Act"), OKLA. STAT. tit. 40 § 551 et seq., as amended. This policy will not infringe on those rights.
6. Due to the devastating impact that the use of alcohol and illegal chemical substances can have on the safety of students and employees and their adverse effect on an employee's ability to perform the employee's job, the board will not tolerate employees who use, possess, distribute, purchase, sell or are under the influence (as defined in the policy) of alcohol or illegal chemical substances when on duty or while on school property.
7. This policy will apply to all employees of the school district regardless of position, title or seniority except bus drivers. The testing of bus drivers for alcohol or illegal chemical substances is exclusively governed by the school district's policy on Alcohol and Drug Testing for Drivers and the federal Omnibus Transportation Act of 1991. Bus drivers whose job assignment involves duties independent of bus driving shall be subject to this policy as to all non-bus driving duties.
8. Violations of this policy will subject the employee to disciplinary action, including, but not limited to, termination.

Definitions

1. "Applicant" means a person who has applied for a position with an employer and received a conditional offer of employment, or an existing employee seeking transfer or reassignment to a different position, or an existing employee who is being transferred or reassigned to a different position.
2. "Illegal chemical substance" means any substance which an individual may not sell, possess, use, distribute or purchase under either Federal or Oklahoma law. "Illegal chemical substance" includes, but is not limited to, all scheduled drugs as defined by the Oklahoma Uniform Controlled Dangerous Substances Act, all prescription drugs obtained without authorization and all prescribed drugs and over the counter drugs being used for an abusive purpose. By this policy, applicants and employees are placed on notice that the school district may test individuals for drugs and alcohol.
3. "Alcohol" means ethyl alcohol or ethanol.
4. "Under the influence" means any employee of the school district or applicant for employment with the school district who has any alcohol or illegal chemical substance or the metabolites thereof present in the person's body in any amount which is considered to be "positive" for such alcohol or drug or drug metabolites using any scientifically substantiated alcohol or drug use screen test and alcohol or drug use confirm test.
5. "Positive" when referring to an alcohol or drug use test administered under this policy means a toxicological test result which is considered to demonstrate the presence of alcohol or an illegal chemical substance or the metabolites thereof using the cutoff standards or levels determined by the State Board of Health or in the absence of such State Board cutoff levels, the cutoff levels customarily established by the testing laboratory administering the alcohol or drug use test.
6. "School property" means any property owned, leased or rented by the school district, including but not limited to school buildings, parking lots and motor vehicles.
7. "Drug or alcohol test" means a chemical test administered for the purpose of determining the presence or absence of a drug or its metabolites or alcohol in a person's bodily tissue, fluids or products. Adulteration of a specimen or of a drug or alcohol test shall be considered as a refusal to test.
8. "Confirmation test" means a drug or alcohol test on a sample to substantiate the results of a prior drug or alcohol test on the same sample and which uses different chemical principles and is of equal or greater accuracy than the initial test.

In instances when a breathalyzer test is used, a confirmation test means a second sample test that confirms the prior result. Where a single use test is utilized, a confirmation test means a second test confirmed by a testing facility.
9. "Employee" means any person who supplies labor for remuneration to his or her employer in this state and shall not include an independent contractor, subcontractor or employees of an independent contractor; provided, however, an independent contractor, subcontractor, or employees of an independent contractor, may be subject to a workplace drug or alcohol testing policy under the terms of the contractual agreement when the drug or alcohol testing policy applies to other workers at the job site or workers who are in the same or similar classification or group.

10. "On duty" means any time during which an employee is acting in an official capacity for the school district or performing tasks within the employee's job description, including the taking of an annual physical examination.

 - B. employees of independent contractors who are required to have a CDL;
 - C. owner-operators;
 - D. leased drivers; and
 - E. occasional drivers.
12. To the extent not specifically defined herein, the definition of any term, word or phrase found in this policy shall be as set forth in the Act.

Procedures for Alcohol or Illegal Chemical Substance Testing

1. Any alcohol or drug use test administered under the terms of this policy will be administered by or at the direction of a testing facility licensed by the Oklahoma State Department of Health ("Department") and using scientifically validated toxicological methods that comply with rules promulgated by the Department. Testing facilities shall be required to have detailed written specifications to assure chain of custody of the samples, proper labeling, proper laboratory control and scientific testing. All aspects of the alcohol and drug use testing program, including the taking of samples, will be conducted so as to safeguard the personal and privacy rights of applicants and employees. The test sample shall be obtained in a manner which minimizes its intrusiveness.

In the case of urine samples, the samples must be collected in a restroom or other private facility behind a closed stall or as otherwise permitted by the Department or its board; a sample shall be collected in sufficient quantity for splitting into two (2) separate samples, pursuant to rules of the State Board of Health, to provide for any subsequent independent analysis in the event of a challenge of the test results of the main sample; the test monitor shall not observe any employee or applicant while the sample is being produced but the test monitor may be present outside the stall to listen for the normal sounds of urination in order to guard against tampered samples and to insure an accurate chain of custody; and the test monitor may verify the normal warmth and appearance of the sample. If at any time during the testing procedure the test monitor has reason to believe or suspect that an employee/applicant is tampering with the sample, the test monitor may stop the procedure and inform the test coordinator. The test monitor shall be of the same gender as the applicant/employee giving the sample.

The test monitor shall give each employee or applicant a form on which the employee or applicant may, but shall not be required to, list any medications he has taken or any other legitimate reasons for his or her having been in recent contact with alcohol or illegal chemical substances.

2. If the initial drug use test is positive for the presence of an illegal chemical substance or the metabolites thereof, the initial test result will be subject to confirmation by a second and different test of the same sample. The second test will use an equivalent scientifically accepted method of equal or greater accuracy as approved by rules of the State Board of Health, at the cutoff levels determined by board rules. An applicant for employment will not be denied employment or an employee will not be subject to disciplinary procedures unless the second test is positive for the presence of illegal chemical substances or the metabolites thereof.
3. If an initial alcohol use test is positive for the presence of alcohol, the initial test result will be subject to confirmation by a second and different test using any scientifically accepted method approved by rules of the State Board of Health, at the cutoff levels determined by board rules.
4. A written record of the chain of custody of the sample shall be maintained from the time of the collection of the sample until the sample is no longer required.
5. Any applicant for employment or employee who is subject to disciplinary action as a result of being under the influence of alcohol or an illegal chemical substance, as and for an appeal procedure, will be given a reasonable opportunity, in confidence, to explain or rebut the alcohol or drug use test results. If the applicant or employee asserts that the positive test results are caused by other than consumption of alcohol or an illegal chemical substance by the applicant or employee, then the applicant or employee will be given an opportunity to present evidence that the positive test result was produced by other than consumption of alcohol or an illegal chemical substance. The school district will rely on the opinion of the school district's testing facility which performed the tests in determining whether the positive test result was produced by other than consumption of alcohol or an illegal chemical substance.

In the case of drug use testing, the employee or applicant will have a right to have a second test performed on the same test sample at the expense of the employee or applicant. In the case of alcohol testing, the employee or applicant will have a right to have a second test performed on the same test sample using any scientifically accepted method approved by rules of the State Board of Health, at the cutoff levels determined by board rules. The request for the second test must be made within twenty-four (24) hours of receiving notice of a positive test in order to challenge the results of a positive test and subject to the approval by the school district's testing facility that (a) the facility selected by the applicant or employee for the second test meets the qualifications required for a testing facility under the Act and (b) the testing methodology used by the facility selected by the employee or applicant conforms to scientifically accepted analytical methods and procedures, including the cutoff levels, as determined by the State Board of Health. If the re-test reverses the findings of the challenged positive result, then the school district will reimburse the applicant or employee for the costs of the re-test. A proper chain of custody shall be maintained at all times in transmitting the sample to and from a second testing facility.

6. The school district may permit testing for drugs or alcohol by other methods reasonably calculated to detect the presence of drugs or alcohol, including but not limited to breathalyzer testing, testing by use of a single-use test device, known as onsite or quick testing devices, to collect, handle, store, and ship a sample collected for testing.

7. The testing facility reports and results of alcohol and drug use testing will be maintained on a confidential basis except as otherwise required by law. The laboratory performing alcohol or drug use tests for the school district will not report on or disclose to the school district any physical or mental condition affecting an employee or employment applicant which may be discovered in the examination of a sample other than the presence of alcohol or illegal chemical substances or the metabolites thereof. The use of samples to test for any other substances will not be permitted.
8. The records of all drug and alcohol test results and related information retained by the school district shall be the property of the school district unless:
 - A. the information will be admissible evidence by an employer or employee in a court case or administrative agency hearing if either the employer or employee is a named party;
 - B. the information is required to comply with a valid judicial or administrative order; or
 - C. the school district's employees, agents or representative needs to access the records in the administration of the Act.

Employee Alcohol and Drug Use Test Requirements

The school district is authorized to conduct drug and alcohol testing in accordance with the Act. The school district has chosen to conduct drug or alcohol testing under the following circumstances:

1. *Applicant testing:* The school district will require an applicant, as defined above, to undergo drug or alcohol testing and may use a refusal to undergo testing or a positive test result as a basis for refusal to hire or grant a voluntary transfer/reassignment.
2. *For-cause testing:* The school district will require an employee to undergo drug or alcohol testing at any time the superintendent, or designee, reasonably believes that the employee may be under the influence of drugs or alcohol, including, but not limited to, the following circumstances:
 - A. drugs or alcohol on or about the employee's person or in the employee's vicinity,
 - B. conduct on the employee's part that suggests impairment or influence of drugs or alcohol,
 - C. a report of drug or alcohol use while at work or on duty,
 - D. information that an employee has tampered with drug or alcohol testing at any time,
 - E. negative performance patterns, or
 - F. excessive or unexplained absenteeism or tardiness.
3. *Post-accident testing:* The school district will require an employee to undergo drug or alcohol testing if the employee or another person has sustained an injury while at work or property has been damaged while at work, including damage to equipment. For purposes of workers' compensation, no employee who tests positive for the presence of substances defined and consumed pursuant to Section 465.20 of Title 63 of the Oklahoma Statutes, alcohol, illegal drugs, or illegally used chemicals, or refuses to take a drug or alcohol test required by the employer, shall be eligible for such compensation;

4. *Random testing:* As determined appropriate by the board of education, the school district may require an employee or all members of an employment classification or group to undergo drug or alcohol testing at random and may limit its random testing programs to particular employment classifications or groups, except that the school district will require random testing only of employees who:
 - A. are police or peace officers, have drug interdiction responsibilities, or are authorized to carry firearms, or
 - B. are engaged in activities which directly affect the safety of others, including but not limited to school vehicle mechanics.
5. *Scheduled, periodic testing:* The school district will require an employee to undergo drug or alcohol testing as a routine part of a routinely scheduled employee fitness-for-duty medical examination, or in connection with an employee's return to duty from leave of absence, of employees who:
 - A. are police or peace officers, have drug interdiction responsibilities, or are authorized to carry firearms, or
 - B. are engaged in activities which directly affect the safety of others, including but not limited to school vehicle mechanics.
6. *Post-rehabilitation testing:* The school district may request or require an employee to undergo drug or alcohol testing for a period of up to two (2) years commencing with the employee's return to work, following a positive test or following participation in a drug or alcohol dependency treatment program.

Employee Use, Sale, Possession, Distribution, Purchase or Being Under the Influence of Alcohol or Illegal Chemical Substance

Any employee who possesses, uses, distributes, purchases, sells or is confirmed by alcohol or drug use tests to be under the influence (as defined by this policy) of alcohol or an illegal chemical substance while on duty, while on school property or as a result of alcohol or drug use tests conducted under this policy, or who refuses to submit to an alcohol or drug test permitted under the Act will be subject to disciplinary action, including, but not limited to, termination.

Alcohol and Drug Use Tests of Applicants for Employment -- When Required

All applicants for employment will be required to submit to alcohol and/or drug use testing after a conditional offer of employment has been made to the applicant. All applicants will be notified that alcohol and/or drug use testing will occur if they are offered a conditional offer of employment. Any applicant who refuses to submit to an alcohol or drug use test after a conditional offer of employment will not be hired.

Applicants Under the Influence of Alcohol or An Illegal Chemical Substance

Any applicant who is confirmed by alcohol or drug use tests to be under the influence (as defined by this policy) of alcohol or an illegal chemical substance will not be hired.

1. The superintendent;
2. Any employee designated for such purposes by the superintendent or board.

Release of Information

1. Upon written request, the applicant for employment or the employee will be provided, without charge, a copy of all information and records related to the individuals' testing. All test records and results will be confidential and kept in files separate from the employee or applicant's personnel records.
2. The school district shall not release such records to any person other than the applicant, employee or the school district's review officer unless the applicant or employee, in writing following receipt of the test results, has expressly granted permission for the school district to release such records in order to comply with a valid judicial or administrative order.
3. The testing facility, of any agent, representative or designee of the facility, or any review officer, shall not disclose to any employer, based on the analysis of a sample collected from an applicant or employee for the purpose of testing for the presence of drugs or alcohol, any information relating to the general health, pregnancy, or other physical or mental condition of the applicant or employee.
4. The testing facility shall release the results of the drug or alcohol test, and any analysis and information related thereto, to the individual tested upon request.
5. This policy does not preclude the school district, when contracting with another employer, from sharing drug or alcohol testing results of any tested person who works pursuant to a contractual agreement.

Notice of Policy

This policy shall be given broad circulation to all employees of the school district which shall include prominent posting in the school district. Each employee shall be given a copy of this policy and each applicant shall be given a copy of this policy upon the tender of a conditional offer of employment. 4. Posting a copy in a prominent employee access area.

The Standards for Workplace Drug and Alcohol Testing Act

This policy is subject to and supplemented by the Act. To the extent that any provision of this policy is in conflict with the Act, then the Act shall control. To the extent that this policy is silent as to any matter covered by the Act, then the Act shall control. This policy shall be interpreted by the board of education of the school district and its employees consistent with the Act.

DRUG-FREE SCHOOLS

As required by the Environmental Tobacco Smoke Act Section 143 Part C “Non-Smoking Policy for Children’s Services” the Morrison Public Schools will continue to provide a tobacco-free school as required in Section 1043 (a) and Oklahoma House Bill 2529 enacted into law May 19,2000.

Chemical dependence is a contagious, progressive disease that does not disappear of its own accord. Because drugs have a destructive impact on the brain, regular users lose control over their behavior, and most of them find it extremely difficult to stop using drugs without outside intervention. Using a drug just "one time" predisposes a person to try it again because that person has apparently violated a taboo with impunity. For additional health hazards, associated with drug or alcohol use, please refer to the school district's drug education curriculum and to the district's drug prevention policy.

Any student or employee of this school district who believes that he/she may have a problem with drug abuse may be referred to appropriate local agencies for counseling, treatment, or rehabilitation. For additional information concerning assistance available, please refer to the school district's education curriculum or contact the superintendent's office.

DRUG EDUCATION/PREVENTION PROGRAM

It is the policy of the Morrison Board of Education that a drug education/prevention program is instituted district wide for all district employees.

This program will contain the following provisions:

Employees

1. Standards of conduct that clearly prohibit the unlawful possession, use or distribution of illicit drugs and alcohol on school premises or as a part of any school activity.
2. A clear statement that disciplinary sanctions up to and including termination of employment and referral for prosecution will be imposed on employees who violate the standards of conduct and a description of those sanctions.
3. Information about any drug and alcohol counseling and rehabilitation and re-entry programs that is available to employees.
4. A requirement that employees be given a copy of the standards of conduct and the statement of disciplinary sanctions.
5. A requirement that employees be notified that compliance with the standards of conduct is mandatory.

DRUG AND ALCOHOL TESTING PROGRAM – BUS DRIVERS

Employees who operate school vehicles are subject to drug and alcohol testing if a commercial driver’s license is required to operate a school vehicle which transports 16 or more persons, including the driver, or which weighs 26,001 pounds or more. For the purposes of this testing program, the term “employees” includes applicants who have been offered a position to operate a school vehicle.

Employees operating a school vehicle as described above are subject to pre-employment drug testing and random reasonable suspicion, post-accident, return-to-duty, and follow-up drug and alcohol testing. Employees operating school vehicles shall not perform a safety-sensitive function within four hours of using alcohol. Employees governed by this policy shall be subject to drug and alcohol testing beginning the first day they operate or are offered a position to operate school vehicles and will continue to be subject to drug and alcohol testing as long as they may be required to perform a safety-sensitive function as it is defined in administrative regulations. Employees with questions about the drug and alcohol-testing program may contact the superintendent.

Employees who violate the terms of this policy will be subject to discipline up to and including termination. Employees who violate this policy may be required to successfully participate in a substance abuse evaluation and, if recommended, a substance abuse treatment program. Employees required to participate in and who fail to or refuse to successfully participate in a substance abuse evaluation or recommended substance abuse treatment program will be subject to discipline up to and including termination.

It is the responsibility of the superintendent to develop administrative regulations to implement this policy. The superintendent shall also inform applicants of the requirement for drug and alcohol testing in notices or advertisements for employment, in the application form, and personally at the first interview with the applicant.

The superintendent shall also be responsible for publication and dissemination of this policy and its supporting administrative regulations to employees operating school vehicles. The superintendent shall also oversee a substance-free awareness program to educate employees about the dangers of substance abuse and notify them of available substance abuse treatment resources and programs.

REGULATION DRUG AND ALCOHOL TESTING PROGRAM – BUS DRIVERS

The following administrative regulations support the drug and alcohol testing program policy of the board of education. It also establishes and explains the requirements of the district’s drug and alcohol testing program required for employees operating school vehicles.

Questions regarding the drug and alcohol testing program policy, these supporting regulations, or the drug and alcohol testing program may be directed to the superintendent, or designee, who will be the school district contact person. The contact person will answer questions from employees and others about the program, receive the test results, receive identification numbers of the drivers and will notify those drivers selected for random testing.

With respect to drug testing, these procedures require that an appropriate drug testing custody form be used from time of collection to receipt by the laboratory and that upon receipt by the laboratory an appropriate laboratory chain of custody form(s) account(s) for the sample or sample aliquots within the laboratory.

Collection Site: A place where drivers present themselves for the purpose of providing body fluid or a tissue sample to be analyzed for specific drugs or breath alcohol concentration.

Commercial Motor Vehicle: A motor vehicle or combination of motor vehicles used in commerce to transport passengers or property if the motor vehicle 1) has a gross combination weight rating of 26,001 or more pounds inclusive of a towed unit with a gross vehicle weight of 10,000 or more pounds; or 2) has a gross vehicle weight rating of 26,001 or more pounds; or 3) is designed to transport 16 or more passengers, including the driver; or 4) is of any size used in the transportation of materials found to be hazardous for the purposes of the Hazardous Transportation Act and which require the motor vehicle to be placarded under the Hazardous Materials regulations.

Confirmation Test: For alcohol testing, it is a second test following a screening test with a result of 0.02 or greater breath alcohol concentration that provides quantitative data of alcohol concentration. For drug testing, it is a second analytical procedure (GC/MS) to identify the presence of a specific drug or metabolite which is independent of the initial test and which uses a different technique and chemical principle from that of the initial test in order to ensure reliability and accuracy.

Controlled Substances/Drugs: Marijuana, cocaine, opiates, amphetamines, phencyclidine.

Driver: Any person who operates a school vehicle. This includes, but is not limited to, full-time, regularly employed drivers; casual, intermittent or occasional drivers; leased drivers and independent, owner-operator contractors who are either directly employed by or under lease to the school district or who operate a school vehicle at the direction of or with the consent of the school district. For the purposes of pre-employment/pre-duty testing only, the term “driver” includes applicants for drivers of school vehicles positions.

Initial Test (or Screening Test): In drug testing, it is an immunoassay screen to eliminate “negative” urine specimens from further consideration. In alcohol testing, it is an analytic procedure to determine whether a driver may have a prohibited concentration of alcohol in a breath specimen.

Medical Review Officer (MRO): A licensed physician (medical doctor or doctor of osteopathy) responsible for receiving laboratory results generated by an employer’s drug testing program who has knowledge of substance abuse disorders and has appropriate medical training to interpret and evaluate a driver’s confirmed positive test result together with the driver’s medical history and any other relevant bio-medical information.

Non-suspicion-based Post-accident Testing: Testing of a driver after an accident without regard to whether there is any reasonable suspicion of drug usage, reasonable cause to believe the driver has been operating the school vehicle while under the influence of drugs, or reasonable cause to believe the driver was at fault in the accident and drug usage may have been a factor.

Performing a Safety-sensitive Function: A driver is considered to be performing a safety-sensitive function during any period in which the driver is actually performing, ready to perform, or immediately available to perform any safety-sensitive function.

Random Selection Process: When drug tests are unannounced and every driver has an equal chance of being selected for testing.

Reasonable Suspicion: When the school district believes the appearance, behavior, speech or body odors of the driver are indicative of the use of drugs or alcohol.

Refusal to Test: When a driver (1) fails to provide adequate breath for alcohol testing without a valid medical explanation after he or she has received notice of the requirement for breath testing in accordance with the provisions of the law, (2) fails to provide adequate urine for drug testing without a valid medical explanation after he or she has received notice of the requirement for urine testing in accordance with the provisions of the law, or (3) engages in conduct that clearly obstructs the testing process. A refusal to test is treated as a positive drug test result or an alcohol test result of 0.04 or greater breath alcohol concentration.

Safety-sensitive Function: All time from the time when a driver begins to work or is required to be in readiness to work until the time the driver is relieved from work and all responsibility for performing work. Safety sensitive functions shall include, but are not limited to:

1. All time at the district waiting to be dispatched.
2. All time inspecting equipment or otherwise servicing any commercial motor vehicle at any time.
3. All time spent at the driving controls of a commercial vehicle in operation.
4. All time in or on a commercial vehicle.
5. All time repairing, obtaining assistance, or remaining in attendance on a disabled vehicle.

School Vehicle: A vehicle owned, leased, and/or operated at the direction or with the consent of the school district which transports 16 or more persons, including the driver, or weighs over 26,001 pounds and requires the driver to have/possess a commercial driver's license in order to operate the vehicle.

Split Specimen/Split Sample: The division of the urine specimen into thirty milliliters in a specimen bottle (the primary sample) and into at least fifteen milliliters in a second specimen bottle (the split sample).

Stand-down: Is prohibited by federal regulations and consists of temporarily removing an employee from the performance of safety-sensitive functions based only on a report from a laboratory to the MRO of a confirmed positive test for a drug or drug metabolite, an adulterated test, or a substituted test, before the MRO has completed verification of the test result.

Substance Abuse Professional: A licensed physician (medical doctor or doctor of osteopathy) or a licensed or certified psychologist, social worker, employee assistance professional, or addiction counselor (certified by the National Association of Alcoholism and Drug Abuse Counselors Certification Commission) with knowledge of, and clinical experience in, the diagnosis and treatment of alcohol and controlled substances-related disorders.

Verified Test: A drug test or validity testing result from a federally certified laboratory that has undergone review and final determination by the MRO.

Covered Drivers

1. The following requirements apply for a driver to be covered by the drug and alcohol testing program:
 - A. Drive a vehicle transporting 16 or more persons, including the driver, or drive a vehicle weighing over 26,001 pounds; and
 - B. Require a commercial driver's license to hold the driver position.
2. Covered drivers include:
 - A. Applicants seeking a position as a driver;
 - B. Full-time, regularly employed drivers;
 - C. Casual, intermittent, occasional or substitute drivers (including coaches, teachers, administrators, mechanics, etc.);
 - D. Leased drivers and independent, owner-operator contractors who are either directly employed by or under lease to a school district or who operate a school vehicle at the direction of or with the consent of a school district.
3. Drivers are subject to the drug and alcohol testing program and its requirements throughout the year, including the times when school is not in session or when the driver is on leave.

Prohibited Driver Conduct

1. Drivers shall not report to duty or remain on duty with a 0.04 or greater breath alcohol concentration.
2. Drivers shall not report for duty or remain on duty when using any drug except when a physician has advised the driver that the drug does not adversely affect the driver's ability to safely operate a school vehicle and the school district is informed in writing of the medication and doctor's opinion.
3. Drivers shall not use alcohol at least four hours prior to, or during the performance of, a safety-sensitive function.
4. Drivers shall not possess alcohol while on duty. This includes possessing prescriptions and over-the-counter medicines containing alcohol unless the packaging seal is unbroken.
5. Drivers required to take a post-accident alcohol test shall not use alcohol within eight hours following the accident or prior to undergoing a post-accident alcohol test; whichever comes first.
6. Drivers shall not refuse to submit to a drug or alcohol test. A refusal to test is considered a positive test result requiring the driver to undergo a substance abuse evaluation and subjecting the driver to discipline up to and including termination.
7. Drivers shall not report for duty or remain on duty performing a safety-sensitive function if the driver has a positive drug test result.

Alcohol Breath Testing Procedures

1. Driver's breath is tested for alcohol.
2. Evidentiary breath testing devices are used to conduct the screening test and, if necessary, the confirmation alcohol test.
 - a. The screening alcohol breath test determines whether the driver's breath alcohol concentration is less than 0.02.
 - i. A screening alcohol test result of less than 0.02 breath alcohol concentration allows the driver to continue to perform a safety-sensitive function.
 - ii. An initial alcohol test result of 0.02 breath alcohol concentration or greater requires a confirmation test.
 - b. The confirmation alcohol breath test determines whether the driver may continue to perform a safety-sensitive function.
 - i. A confirmation alcohol test result of less than 0.02-breath alcohol concentration allows the driver to continue to perform a safety-sensitive function.
 - ii. A confirmation alcohol test result of greater than 0.02 breath alcohol concentration but less than 0.04 breath alcohol concentration requires the driver to cease performing a safety-sensitive function for 24 hours.
 - iii. A confirmation alcohol test result of 0.04 or greater breath alcohol concentration requires the driver to cease performing a safety-sensitive function and undergo a substance abuse evaluation.
3. Alcohol testing is conducted at collections sites, which provide privacy to the driver and contain the necessary equipment, personnel and materials.
 - a. Alcohol testing is conducted at a designated non-school district facility unless the situation requires another location.
 - b. In the event privacy cannot be assured, privacy will be provided to the extent practical.
4. Screening alcohol testing steps
 - a. Once the driver is notified to submit to an alcohol test, the driver must complete the alcohol/drug test notification form and proceed immediately to the collection site. Collection site person will contact the superintendent or designated contact person immediately when a driver does not arrive at the specified time. Failure to arrive at the collection site in a timely manner is considered a refusal to test, absent an acceptable excuse.
 - b. Upon arrival, the driver must provide a photo identification. Failure of the driver to produce a photo identification is considered insubordination as well as a refusal to test.
 - c. The collection site person explains the testing procedure to the driver.

- d. The collection site person, the breath alcohol technician and the driver complete and sign the appropriate sections of the alcohol testing form.
 - i. Refusal of the driver to sign the form prior to the screening alcohol test is considered a refusal to test.
 - ii. The school district is notified immediately of the driver's refusal to sign.
 - e. The driver forcefully blows into the evidentiary breath testing device mouthpiece for at least six seconds or until an adequate amount of breath has been obtained.
 - f. The initial test results are shared with the driver.
 - g. The driver and breath alcohol technician must sign the alcohol testing form following completion of the alcohol test. Failure to sign the form after the alcohol test is not considered a refusal to test. However, in the remarks section of the form, the breath alcohol technician notes the driver's refusal to sign.
 - h. Screening alcohol test results
 - i. An alcohol test result of less than 0.02-breath alcohol concentration is reported to the school district in a confidential manner and the driver may continue to perform a safety-sensitive function.
 - ii. An alcohol test result of 0.02 or more breath alcohol concentration requires a confirmation alcohol test between 15 and 20 minutes after the screening test.
 - iii. The breath alcohol technician provides the superintendent, or designated contact person, with a copy of the breath alcohol testing form if written communication was not used to report the test results.
 - i. Potentially incomplete or invalid breath alcohol tests are repeated with corrected procedures.
 - j. The breath alcohol test is stopped when the driver fails twice to provide an adequate amount of breath. In that case:
 - i. A physician analyzes the driver's inability to provide adequate breath.
 - ii. Failure to provide adequate breath is considered a refusal to test unless the physician determines a medical condition caused the failure to provide adequate breath.
 - iii. A refusal of the driver to try a second time to provide adequate breath is considered a refusal to test, unless a physician determines the driver is not physically capable of providing adequate breath.
5. Confirmation alcohol testing steps
- a. The confirmation alcohol test is done between 15 and 20 minutes after the screening alcohol test whether or not the driver followed the requirements to not eat, drink, put any object or substance in his or her mouth, and, to the extent possible, not belch during the 15-minute waiting period to avoid accumulation of mouth alcohol leading to an artificial high reading.

- b. If a different collection site is used, the driver must be under the observation of the collection site personnel or school district personnel while in transit to the confirmation alcohol-testing site or while waiting for the confirmation alcohol test.
- c. If a different collection site person is used for the confirmation alcohol test, the driver must again provide photo identification.
- d. The collection site person explains the testing procedure to the driver.
- e. The collection site person, a breath alcohol technician and the driver complete and sign the appropriate sections of the alcohol testing form.
 - i. Refusal of the driver to sign the form prior to the confirmation alcohol test is considered a refusal to test.
 - ii. The school district is notified immediately of the refusal to sign.
- f. The driver forcefully blows into the evidentiary breath testing device mouthpiece for at least six seconds or until an adequate amount of breath has been obtained.
- g. The confirmation alcohol test results, which are the final and official test results, are shared with the driver.
- h. The driver and breath alcohol technician must sign the alcohol testing form following completion of the alcohol test. Failure to sign the form after the alcohol test is not considered a refusal to test. However, in the remarks section of the form, the breath alcohol technician notes the driver's refusal to sign.
- i. The breath alcohol technician informs the superintendent, or designated contact person, of the results of the test in a confidential manner.
 - i. An alcohol test result of less than 0.02-breath alcohol concentration is reported to the school district in a confidential manner and the driver may continue to perform a safety-sensitive function.
 - ii. The breath alcohol technician notifies the superintendent, or designated contact person, immediately of confirmation of alcohol test results of 0.02 or more breath alcohol breath concentration.
 - iii. The collection site person provides the superintendent, or designated contact person, with a copy of the breath alcohol testing form if written communication was not used to report the test results.
- j. Potentially incomplete or invalid breath alcohol tests are repeated with corrected procedures.
- k. The breath alcohol test is stopped when the driver fails twice to provide an adequate amount of breath. In that case:
 - i. A physician analyzes the driver's inability to provide adequate breath.
 - ii. Failure to provide adequate breath is considered a refusal to test unless the physician determines a medical condition caused the failure to provide adequate breath.
 - iii. A refusal of the driver to try a second time to provide adequate breath is considered a refusal to test, unless a physician determines the driver is not physically capable of providing adequate breath.

Drug Testing Procedures

1. Driver's urine is tested for marijuana, cocaine, opiates, amphetamines, phencyclidine, etc.
2. A split specimen urine drug test, often called "split sample test", is used to conduct the drug test.
 - a. A negative drug test result allows the driver to continue to perform a safety-sensitive function.
 - b. A positive drug test result on the primary sample requires the driver to be removed from performing a safety-sensitive function.
 - c. A positive drug test result on the primary sample allows the driver an opportunity to request the split sample be tested by another certified laboratory for the specific drug found in the primary sample. A negative drug test result on the split sample results in a negative drug test result.
 - d. A positive drug test result requires the driver to undergo a substance abuse evaluation.
3. Drivers taking medication at a doctor's direction may perform a safety-sensitive function if the doctor determines there is not an adverse effect on performing a safety-sensitive function and the school district is informed in writing of the medication and doctor's opinion.
4. Drug testing is conducted at collection sites, which provide privacy to the driver and where the necessary equipment, personnel and materials are located.
 - a. Drug testing is conducted at a designated non-school district facility unless the situation requires another location. Public restrooms can be used as collection sites in exceptional circumstances.
 - b. In the event privacy cannot be assured, privacy is provided to the extent practical. However, direct observation is allowed if:
 - i. Reasons exist to believe the driver may alter or substitute the specimen.
 - ii. The driver presents a specimen with a temperature outside the allowed range and does not provide an oral body temperature or the oral body temperature varies from the specimen provided.
 - iii. The last specimen provided by the driver was determined by the laboratory to not meet specific gravity and urine creatinine concentration criteria.
 - iv. The collection site person observes conduct of the driver to substitute or adulterate the specimen.
 - v. The driver has previously been determined to have used a drug without medical authorization and the particular test is for follow-up testing upon or after return to duty.
 - c. Direct observation is approved by the supervisor of the collection site person or the designated school district representative. Non-medical personnel performing direct observation must be of the same gender as the driver.

5. Drug testing steps

- a. Once the driver is notified to submit to a drug test, the driver must complete the alcohol/drug test notification form and proceed immediately to the collection site. The collection site person contacts the superintendent, or designated contact person, immediately when a driver does not arrive at the specified time. Failure to arrive at the collection site in a timely manner is considered a refusal to test, absent an acceptable excuse.
- b. Upon arrival, the driver must provide photo identification. Failure of the driver to produce photo identification is considered insubordination as well as a refusal to test. The driver may require the collection site person to provide proof of identification.
- c. The driver may keep his or her wallet but must remove any unnecessary outer garments, purses, briefcases and similar items at the request of the collection site person.
- d. Immediately prior to providing a urine sample, the driver must wash his or her hands.
- e. The driver must then provide 45 milliliters of urine and deliver it immediately to the collection site person.
 - i. A driver who cannot provide an adequate amount of urine will receive instructions for drinking water and trying again.
 - ii. The drug test is stopped when the driver fails twice to provide an adequate amount of urine.
 - iii. Failure to provide adequate urine is considered a refusal to test unless the physician determines a medical condition caused the failure to provide adequate urine.
- f. The specimen is kept in view of the driver and the collection site person.
- g. Upon receipt of the specimen, the collection site person immediately, and in no event later than four minutes from the time of urination, measures the temperature of the specimen.
- h. The driver may volunteer to have his or her oral temperature taken to provide evidence against alteration or substitution if there is some question about the temperature of the specimen.
- i. The collection site person inspects the specimen for color and other signs of contaminants and notes any unusual findings.
- j. Another specimen is required as soon as possible under direct observation if the collection site person suspects adulteration or substitution.
- k. The specimen is divided into the primary and the split specimen, sealed and labeled. The driver initials the label.
- l. The driver is required to read and sign the statement on the chain of custody form certifying the specimens are the driver's.
- m. The collection site person is required to note on the chain of custody form any unusual behavior or appearance of the driver and any failure to cooperate.
- n. The collection site person completes the chain of custody form and the driver signs the form indicating the collection is complete.
- o. The specimens are packaged for shipping to the laboratory and are shipped immediately or placed in secure storage until they can be shipped.

6. Laboratory

- a. The laboratory used by the school district's drug and alcohol-testing program is certified by the U.S. Department of Health and Human Services. Certified laboratories meet the testing procedures, personnel and record keeping requirements of the law.
- b. Upon arrival of the specimen at the laboratory, the split specimen is stored and the primary specimen is tested.
 - i. A positive drug test result on the initial test of the primary specimen requires a confirmation drug test of the primary specimen.
 - ii. The split specimen is discarded if the primary specimen has a negative drug test result.

7. Medical Review Officer (MRO) reviews drug test results

- a. The MRO may release drug-testing records of a driver to unauthorized individuals only with the written consent of the driver.
- b. The MRO keeps a record of negative drug test results and reports negative drug test results to the school district, usually within two working days.
- c. The primary role of the MRO is to review and interpret positive drug test results to determine whether a legitimate explanation exists for the positive drug test result.
 - i. After reviewing the chain of custody form and laboratory drug test results, the MRO contacts the driver to discuss the positive drug test result prior to notifying the school district and to ask whether the driver requests a drug test of the split sample. The driver's request for a drug test of the split sample must be made within 72 hours of talking with the MRO.
 - ii. Upon request of the driver, the split specimen is sent to a second certified laboratory for drug testing.
 - iii. The MRO contacts the superintendent, or designated contact person, for assistance if the driver cannot be reached.
 - iv. The superintendent, or designated contact person, must confidentially inform the driver to contact the MRO.
 - v. Upon contacting the driver, the superintendent, or designated contact person, must inform the MRO that the driver was contacted.
 - vi. Drivers who cannot be contacted are placed in temporary medically unqualified status, sick leave, other available leave, or unpaid leave of absence.
- d. The MRO may verify a positive drug test without talking to the driver if:
 - i. The driver declines the opportunity to discuss the positive drug test.
 - ii. The driver fails to contact the MRO within five days after the superintendent, or designated contact person, has contacted the driver.
 - iii. The driver can challenge MRO verification of positive drug test results under these circumstances if the driver presents the MRO with information documenting a serious illness, injury or other circumstances unavoidably preventing the driver from timely contacting the MRO. The MRO, based on this additional information, may find a legitimate explanation for the positive drug test result and declare the drug test negative.
- e. The driver is notified of the drugs found in a positive drug test result by the MRO, the superintendent, or designated contact person, or by certified mail to the driver's last known address.
- f. The school district receives a written report of the negative and positive drug test results from the MRO.

Substance Abuse Professional

1. A substance abuse evaluation by a substance abuse professional is required when a driver has:
 - A. A positive drug test;
 - B. A positive alcohol test of 0.04 or greater breath alcohol concentration; or
 - C. Violated the drug and alcohol testing program policy, these supporting regulations, or the law.
2. The substance abuse evaluation determines what assistance, if any, the driver needs in resolving problems with alcohol misuse and/or drug use.
3. A list of available substance abuse professionals to provide assistance to bus drivers is available through the superintendent, or designated contact person.

Pre-employment Testing

1. Drivers shall submit to a drug test if a job offer is made. The job offer is contingent upon:
 - A. A negative drug test; and
 - B. A signed written statement authorizing former employers to release all information on the driver related to drugs and alcohol.

A pre-employment drug test may not need to be administered by the school district if the driver has participated in a drug testing program that meets the requirements of these regulations within the previous 30 days and while participating in that program, either was tested for drugs within the past six months from the date of application with the school district or participated in a random drug testing program for the previous 12 months from the date of application with the school district and the school district ensures that, to the school district's knowledge, no prior employer has records of violation of the regulations within the previous six months.

If the school district chooses not to administer a pre-employment alcohol and/or drug test, the school district must contact the alcohol and drug-testing program in which the driver participates or participated and obtain the following information:

- Name and address(es) of the program(s);
- Verification that the driver participates or participated in the program(s);
- Verification that the program(s) conform(s) to these regulations;
- Verification that the driver is qualified under these regulations, including that the driver has not refused to be tested for alcohol or drugs;
- The date the driver was last tested for alcohol or drugs;
- The results of any tests taken within the previous six months and any other violation of the regulations.

For applicants that have had a positive drug or alcohol test result, based on information from a prior employer, the pre-employment test can serve as a return-to-duty test.

2. Prior to allowing a driver to perform a safety-sensitive function, and not later than 14 days after performing a safety-sensitive function, the following information must be obtained about the driver during the preceding two years from the date of the application.
 - A. Any alcohol test results of 0.04 or greater breath alcohol concentration;
 - B. Positive drug test results; and
 - C. Refusals to be tested.

The school district may obtain any information related to the driver from previous employers as long as the driver consents and the written consent regarding the requested information are presented to the previous employers. If this information is not obtained prior to the performance of a safety-sensitive function, the school district will document why the information was not obtained prior to the performance of the safety-sensitive function. The information may be obtained by the school district by personal interviews, telephone interviews, letter or other method, which ensures confidentiality. The school district will document the information received and will note that the information addresses only whether the driver can perform a safety-sensitive function and does not address the Americans with Disabilities Act considerations of alcohol and drug addiction.

Random Testing

1. Annually, 25% of the average number of drivers is selected for random alcohol tests and 50% of the average number of drivers is selected for random drug tests.
2. The driver's identification numbers are selected by a scientific method giving each driver an equal chance to be selected.
3. Random tests are unannounced and spread throughout the year.
4. Drivers selected for random alcohol testing are notified just before, during or just after performing a safety-sensitive function. The school district will document why some, if any, drivers were selected but not notified (i.e., illness, vacation, etc.).
5. Drivers selected for random drug testing are notified at any time. The school district will document why some, if any, drivers were selected but not notified (i.e., illness, vacation, etc.).
6. Once a driver is notified of being selected for a random test, the driver must proceed immediately to the collection site. However, drivers performing a safety-sensitive function must safely stop and proceed to the collection site as soon as possible.

Reasonable Suspicion Testing

1. A driver may be required to submit to a reasonable suspicion drug test at any time.
2. A driver may be required to submit to a reasonable suspicion alcohol test just before, during, or just after the driver performs a safety-sensitive function or just before, during, or just after the time the driver is required to be in compliance with the drug and alcohol testing program policy, these supporting administrative regulations, or the law.
 - A. A reasonable suspicion alcohol test is performed within two hours and not later than eight hours of determining reasonable suspicion.
 - B. If the alcohol test is not given within two hours, the reasons for the delay must be documented.
 - C. If the alcohol test is not given within eight hours, attempts to test are stopped and the reason for not testing must be documented.

3. A reasonable suspicion test request is made by an employee who received training to determine reasonable suspicion. The reasons for the reasonable suspicion must be documented within 24 hours or prior to the release of the test results. If more than one employee trained to determine reasonable suspicion observed the driver, those employees must also document their reasons.

Post-Accident Testing

1. Drivers are subject to both post-accident drug and alcohol testing as soon as possible after an accident in which:
 - A. The driver received a citation and
 - i. Bodily injury occurred to a person who, as a result of the injury, required immediate medical treatment away from the scene of the accident; or
 - ii. One or more motor vehicles incurred disabling damage as a result of the accident, requiring the vehicle(s) to be transported away from the scene by a tow truck or other vehicle; or
 - B. A fatality occurred.

If a citation is not issued against the driver within eight hours of the accident, no alcohol testing can be done. If the citation is issued prior to 32 hours, a drug test must be given. If the citation is issued too late for either the alcohol or drug test, the circumstances must be documented.

2. Drivers must remain readily available for post-accident testing.
 - A. Drivers who leave the scene or who do not remain readily available are deemed to have refused to test.
 - B. Necessary medical treatment cannot and should not be denied to a driver waiting to complete post-accident drug and alcohol tests.
3. Alcohol testing requirements
 - A. The alcohol test is administered within two hours and not later than eight hours after the accident.
 - B. The reasons for administering the test later than two hours after the accident must be documented.
 - C. The reasons for not administering the test within eight hours of the accident must be documented.
 - D. Drivers are prohibited from consuming alcohol for eight hours after the accident or until the alcohol test is completed.
4. Drug testing requirements
 - A. The drug test is administered as soon as possible and not later than 72 hours after the accident.
 - B. The reasons for not administering the test must be documented.
5. Results of drug or alcohol testing conducted by law enforcement officers or other officials on the scene with independent authority to conduct such tests are presumed valid if the testing conforms to the law. The school district must receive a copy of the results to use them.

Return-to-duty/Follow-up Testing

1. Prior to returning to duty after a positive drug test, a positive alcohol test of 0.04 or greater breath alcohol concentration, or other violation of the drug and alcohol testing program policy, these regulations or the law:
 - A. The driver must be reevaluated by a substance abuse professional to determine that the driver has properly followed any treatment program prescribed.
 - B. The driver must submit to the tests required by the substance abuse professional. The substance abuse professional may require a return-to-duty test for drugs, alcohol, or both.
 - C. The return-to-duty test must have a negative drug test result and/or an alcohol test result of less than 0.02-breath alcohol concentration before the driver can return to duty and perform a safety-sensitive function.
2. After returning to duty, the driver is subject to a minimum of six unannounced follow-up tests within 12 months for alcohol, drugs, or both, as determined by the substance abuse professional.
 - A. The substance abuse professional can terminate the follow-up testing requirement after the first six tests have been completed or continue the follow-up testing for up to 60 months from the date of the driver's return to duty.
 - B. Alcohol follow-up testing is done just before, during, or just after performing a safety-sensitive function.

School District Responsibilities

1. Drivers will be provided with information on the drug and alcohol testing requirements of the drug and alcohol testing program policy, these administrative regulations, and the law, including the driver's obligations. This information may be included in an employee handbook.
2. Supervisors of drivers or employees designated to determine reasonable suspicion must receive 60 minutes of training on alcohol misuse and 60 minutes of training on drug use. The training must address the physical, behavioral, speech and performance indicators of probably alcohol misuse and drug use.
3. Drivers will be provided with instructions prior to the driver operating a school vehicle to enable the driver to comply with the drug and alcohol testing requirements.
4. Drivers will not be allowed to report to work or perform a safety-sensitive function when the school district has actual knowledge of a driver's drug use, whether or not a drug test was conducted.
5. Drivers will not be allowed to report to work or perform a safety-sensitive function when the school district has actual knowledge of a driver with 0.02 or greater breath alcohol concentration, whether or not an alcohol test was conducted.
6. Through the school district's drug and alcohol testing program service provider, the school district will ensure that the quality assurance plan, developed by the manufacturer and approved by the National Highway Traffic Safety Administration for the evidentiary breath testing device used for alcohol testing of its drivers, describes the inspection, maintenance, and calibration requirements and intervals for the device.
7. Through the school district's drug and alcohol testing program service provider, the district will ensure that the collection site person using an evidentiary breath testing device is a certified breath alcohol technician.

Consequences of Violating the Drug and Alcohol Testing Program Policy, These Administrative Regulations, or the Law

1. Each violation is dealt with based on the circumstances surrounding the violation. The following consequences may result from a violation:
 - A. Drivers may be disciplined up to and including termination.
 - B. Drivers may not be permitted to perform safety-sensitive functions.
 - C. Drivers may be advised of the resources available to them in evaluating and resolving problems associated with the misuse of alcohol or use of drugs.
 - D. Drivers may be required to undergo a substance abuse evaluation to determine what assistance, if any, the driver needs in resolving problems associated with the misuse of alcohol or use of drugs and be required to follow any recommended substance abuse treatment program.
 - E. Prior to returning to duty, the driver is required to have a negative drug test and/or alcohol test result and be subject to the follow-up drug and/or alcohol testing determined necessary based on the circumstances surrounding the incident.
 - F. Drivers refusing to submit to drug and/or alcohol testing are considered insubordinate and are subject to discipline up to and including termination.
 - G. Driver-applicants who refuse to submit to or cooperate with the drug and/or alcohol testing process and requirements shall be disqualified from further consideration.
2. Nothing in the drug and alcohol testing program policy, these administrative regulations, or the law relating to drug and alcohol testing limits, restricts the right of the board or superintendent to discipline, up to and including termination, a driver for conduct which violates the school district's policies, regulations, and procedures.

Drug and Alcohol Testing Records

1. Drug and alcohol testing records are stored in locked files at limited access locations separate and apart from the driver's general personnel records.
2. The records are released only with the written consent of the driver. Only those records specifically authorized for release may be released. However:
 - A. Records may be released to appropriate government agencies without a written consent.

A gun or knife designed for hunting or fishing purposes kept in a privately owned vehicle and properly displayed or stored as required by law shall not be in violation of the provisions of this policy, provided such vehicle containing said gun or knife is driven onto school property only to transport a student to and from school and such vehicle does not remain unattended on school property.

Any person violating the provisions of this law shall upon conviction be guilty of a felony punishable by a fine not to exceed five thousand dollars (\$5,000), and imprisonment for not more than two years. Students violating this policy may be subject to expulsion and/or reported to the county sheriff.

Interpretation of the Law: Dangerous weapons, including but limited to firearms, are a threat to the safety of students and staff of this school district. In addition, possession of dangerous weapons, or replicas or facsimiles of dangerous weapons, disrupts the educational process and interferes with the normal operation of the school. Possession by any student or employee of a dangerous weapon or a replica or facsimile of a dangerous weapon while on school property, at a school sponsored activity or on a school bus or vehicle is prohibited.

A dangerous weapon includes, but is not limited to, **any type of firearm**, air gun or spring gun, BB gun, slingshot, blackjack, brass knuckles or artificial knuckles of any kind, nun-chucks, **any type of knife**, razor, dart, ice pick, explosive smoke bomb, incendiary device, sword cane, hand chains and any replica or facsimile thereof of any item which is used to threaten harm or is used to harm any person.

An exception to this policy may be granted for students or employees participating in an authorized curricular or extracurricular activity or team involving the use or demonstration of a dangerous weapon, or replica or facsimile of a dangerous weapon. For this exception, written prior approval by the principal, in consultation with the superintendent of schools is required.

Rights of due process for all students and rights of disabled students must be observed in accordance with applicable law.

REGULATION WEAPON-FREE SCHOOL

Students who violate this policy may be suspended from school and all activities for any period of time up to the maximum period authorized by law. Additionally, school administrators may seek to file criminal charges against the student.

Any employee in possession of a dangerous weapon, or replica or facsimile of a dangerous weapon, in violation of this school district's policy may, pursuant to applicable board policy, may be placed under immediate suspension from duties pending an investigation of the incident by the appropriate school or legal authorities and may be dismissed or subjected to or other disciplinary action as deemed appropriate by the superintendent or the board of education. In addition, these school district employees who willfully or negligently fail to enforce this policy are subject to disciplinary action, which may include dismissal. Any disciplinary action for any employee, including dismissal will be in accordance with any Board policy and any negotiated agreement, which is applicable to the employee.

If a teacher or other school employee has a reasonable suspicion to believe that a student is in possession of a dangerous weapon or a replica or facsimile of a dangerous weapon, the teacher or employee shall immediately investigate the matter and shall confiscate such weapon or replica or facsimile of a dangerous weapon found if this can be accomplished without placing any students or staff in jeopardy. The teacher or employee shall immediately notify the principal or the principal's designee. If the teacher or employee does not believe that the weapon can be confiscated safely, the teacher or employee shall immediately notify the principal or the principal's designee of the situation. If the teacher or other school employee has reasonable suspicion to believe that any employee or other person is in possession of a dangerous weapon or replica or facsimile of a dangerous weapon in violation of school policy, he/she shall immediately report the matter to his/her immediate supervisor or the superintendent of schools or his designee.

If the principal of his designee learns that a student or employee is believed to be in possession of a dangerous weapon or replica or facsimile thereof, the principal or designee shall observe the following procedure.

Rights of due process for all students and rights of disabled students will be observed in accordance with applicable law and the board of education policies.

BULLYING

It is the policy of this school district that bullying by other students, personnel, or the public will not be tolerated. Students are expected to be civil, polite, and fully engaged in the learning process. Students who act inappropriately are not fully engaged in the learning process. This policy is in effect while the students are on school grounds, in school vehicles, at designated bus stops, at school-sponsored activities, or at school-sanctioned events, and while away from school grounds if the misconduct directly affects the good order, efficient management, and welfare of the school district. Bullying of students by electronic communication is prohibited whether or not such communication originated at school or with school equipment, if the communication is specifically directed at students or school personnel and concerns harassment, intimidation, or bullying at school. The school district is not required to provide educational services in the regular school setting to any student who has been removed from a public school or private school in Oklahoma or another state by administrative or judicial process for an act of using electronic communication with the intent to terrify, intimidate or harass, or threaten to inflict injury or physical harm to faculty or students.

As used in the School Safety and Bullying Prevention Act, “bullying” means any pattern of harassment, intimidation, threatening behavior, physical acts, verbal or electronic communication directed toward a student or group of students that results in or is reasonably perceived as being done with the intent to cause negative educational or physical results for the targeted individual or group and is communicated in such a way as to disrupt or interfere with the school’s educational mission or the education of any student. Such behavior is specifically prohibited.

In administering discipline, consideration will be given to alternative methods of punishment to insure that the most effective discipline is administered in each case. In all disciplinary action, teachers and administrators will be mindful of the fact that they are dealing with individual personalities. The faculty may consider consultation with parents to determine the most effective disciplinary measure.

In considering alternatives of corrective actions, the faculty/administration of the school district will consider those listed below. However, the school is not limited to these alternative methods, nor does this list reflect an order or sequence of events to follow in disciplinary actions. The board of education will rely upon the judgment and discretion of the administrator to determine the appropriate remedial or corrective action in each instance.

1. Conference with student
2. Conference with parents
3. In-school suspension
4. Detention
5. Referral to counselor
6. Behavioral contract

9. Requiring a student to clean or straighten items or facilities damaged by the student’s behavior

10. Restriction of privileges
11. Involvement of local authorities
12. Referring student to appropriate social agency or to a delinquency prevention and diversion program administered by the office of Juvenile Affairs
13. Suspension
14. Performing Campus-site services for the school district
15. Other appropriate disciplinary action as required and as indicated by the circumstances which may include, but is not limited to, removal from eligibility to participate or attend extracurricular activities as well as removal from the privilege of attending or participating in the graduation ceremony, school dances, prom, prom activities, and/or class trips.

Harassment set forth above may include, but is not limited to, the following:

1. Verbal, physical, or written harassment or abuse;
2. Repeated remarks of a demeaning nature;
3. Implied or explicit threats concerning one's grades, achievements, etc.;
4. Demeaning jokes, stories, or activities directed at the student;

The superintendent shall develop procedures providing for:

1. Prompt investigation of allegations of harassment;

3. Establishment of adequate measures to provide confidentiality in the complaint process;
4. Initiation of appropriate corrective actions;
5. Identification and enactment of methods to prevent reoccurrence of the harassment; and
6. A process where the provisions of this policy are disseminated in writing annually to all staff and students.

A copy of this policy will be furnished to each student and teacher in this school district.

Prohibiting Harassment, Intimidation and Bullying Regulation

Statement of Legislative Mandate and Purpose: This regulation is a result of the legislative mandate and public policy embodied in the School Bullying Protection Act, 70 O.S. §24-100.2. The Oklahoma Legislature requires school districts to adopt a policy to prevent harassment, intimidation, and bullying in an effort to “create an environment free of unnecessary disruption” and also requires school districts to actively pursue programs for education regarding bullying behaviors. The Morrison Public Schools’ student conduct code prohibits harassment, intimidation, and bullying. This regulation further explains the negative effects of that behavior and seeks to promote strategies for prevention.

Statement of Board Purpose in Adopting Policy: The board of education recognizes that intimidation, harassment, and bullying of students cause serious educational and personal problems, both for the student-victim and the initiator of the intimidation, harassment, and bullying. The board observes that this conduct:

1. Has been shown by national and state studies to have a substantial adverse effect upon school district operations, the safety of students and faculty, and the educational system at large.
2. Substantially disrupts school operations by interfering with the district’s mission to instruct students in an atmosphere free from fear, is disruptive of school efforts to encourage students to remain in school until graduation, and just as disruptive of the district’s efforts to prepare students for productive lives in the community as they become adults.
3. Substantially disrupts healthy student behavior and thereby academic achievement. Research indicates that healthy student behavior results in increased student academic achievement. Improvement in student behavior through the prevention or minimization of intimidation, harassment, and bullying towards student-victims simultaneously supports the district’s primary and substantial interest in operating schools that foster and promote academic achievement.
4. Substantially interferes with school compliance with federal law that seeks to maximize the mainstreaming of students with disabilities and hinders compliance with Individual Educational Programs containing objectives to increase the socialization of students with disabilities. Targets of bullying are often students with known physical or mental disabilities who, as a result, are perceived by bullies as easy targets for bullying actions.
5. Substantially interferes with the district’s mission to advance the social skills and social and emotional well-being of students. Targets of intimidation, harassment, and bullying are often “passive-target” students who already are lacking in social skills because they tend to be extremely sensitive, shy, display insecurity, anxiety and/or distress; may have experienced a traumatic event; may try to use gifts, toys, money, or class assignments or performance bribes to protect themselves from intimidation, harassment, or bullying; are often small for their age and feel vulnerable to bullying acts; and /or may resort to carrying weapons to school for self-protection. Passive-target victims who have been harassed and demeaned by the behavior of bullies often respond by striving to obtain power over others by becoming bullies themselves, and are specifically prone to develop into students, who eventually inflict serious physical harm on other students, or, in an effort to gain power over their life or situation, commit suicide.

6. Substantially disrupts school operations by increasing violent acts committed against fellow students. Violence, in this context, is frequently accompanied by criminal acts.
7. Substantially disrupts school operations by interfering with the reasonable expectations of other students that they can feel secure at school and not be subjected to frightening acts or be the victim of mistreatment resulting from bullying behavior.

Bullying, harassing, and intimidating behavior often involves expressive gestures, speech, physical acts that are sexually suggestive, lewd, vulgar, profane, or offensive to the education or social mission of this school district, and at times involves the commission of criminal acts. This behavior interferes with the curriculum by disrupting the presentation of instruction and also disrupts and interferes with the student-victim's or bystander's ability to concentrate, retain instruction, and study or to operate free from the effects of intimidation, harassment, and bullying. This results in a reluctance or resistance to attend school.

Definition of Terms

1. Statutory definition of harassment, intimidation, and bullying: 70 O.S. §24-100.3(c) of the School Bullying Protection Act defines the terms “harass, intimidate, or bully” as including, but not limited to, any gesture, written or verbal expression, or physical act that a reasonable person should recognize will:
 - A. Harm another student;
 - B. Damage another student's property;
 - C. Place another student in reasonable fear of harm to the student's person or damage to the student's property; or
 - D. Insult or demean any student or group of students in such a way as to disrupt or interfere with the school's educational mission or the education of any student.
2. The “Reasonable Person” Standard: In determining what a “reasonable person” should recognize as an act placing a student in “reasonable” fear of harm, staff will determine “reasonableness” not only from the point of view of a mature adult, but also from the point of view of an immature child of the age of the intended victim along with, but not limited to, consideration of special emotional, physical, or mental needs of the particular child; personality or physical characteristics, or history that might cause the child to be particularly sensitive to efforts by a bully to humiliate, embarrass, or lower the self-esteem of the victim; and the discipline history, personality of, and physical characteristics of the individual alleged to have engaged in the prohibited behavior.
3. General Display of Bullying Acts: Bullying, for purposes of this section of the regulation, includes harassment and intimidation, and vice versa. According to experts in the field, bullying in general is the exploitation of a less powerful person by an individual taking unfair advantage of that person, which is repeated over time, and which inflicts a negative effect on the victim. The seriousness of a bullying act depends on the harm inflicted upon the victim and the frequency of the offensive acts. Power may be, but is not limited to, physical strength, social skill, verbal ability, or other characteristics. Bullying acts by students have been described in several different categories.

- A. Physical Bullying includes harm or threatened harm to another's body or property, including, but not limited to, what would reasonably be foreseen as a serious expression of intent to inflict physical harm or property damage through verbal or written speech or gestures directed at the student-victim, when considering the factual circumstances in which the threat was made and the reaction of the intended victim. Common acts include tripping, hitting, pushing, pinching, pulling hair, kicking, biting, starting fights, daring others to fight, stealing or destroying property, extortion, assaults with a weapon, other violent acts, and homicide.
- B. Emotional Bullying includes the intentional infliction of harm to another's self-esteem, including, but not limited to, insulting or profane remarks, insulting or profane gestures, or harassing and frightening statement, when such events are considered in light of the surrounding facts, the history of the students involved, and age, maturity, and special characteristics of the students.
- C. Social Bullying includes harm to another's group acceptance, including, but not limited to, harm resulting from intentionally gossiping about another student or intentionally spreading negative rumors about another student that results in the victim being excluded from a school activity or student group; the intentional planning and/or implementation of acts or statements that inflict public humiliation upon a student; the intentional undermining of current relationships of the victim-student through the spreading of untrue gossip or rumors designed to humiliate or embarrass the student; the use of gossip, rumors, or humiliating acts designed to deprive the student of awards, recognition, or involvement in school activities; the false or malicious spreading of an untrue statement or statements about another student that exposes the victim to contempt or ridicule or deprives the victim of the confidence and respect of student peers; or the making of false statements to others that the student has committed a crime, or has an infectious, contagious, or loathsome disease, or similar egregious representations.
- D. Sexual Bullying includes harm to another resulting from, but not limited to, making unwelcome sexual comments about the student; making vulgar, profane, or lewd comments or drawings or graffiti about the victim; directing vulgar, profane, or lewd gestures toward the victim; committing physical acts of a sexual nature at school, including the fondling or touching of private parts of the victim's body; participation in the gossiping or spreading of false rumors about the student's sexual life; written or verbal statements directed at the victim that would reasonable be interpreted as a serious threat to force the victim to commit sexual acts or to sexually assault the victim when considering the factual circumstances in which the threat was made and the reaction of the intended victim; off-campus dating violence by a student that adversely affects the victim's school performance or behavior, attendance, participation in school functions or extracurricular activities, or makes the victim fearful at school of the assaulting bully; or the commission of sexual assault, rape, or homicide. Such conduct may also constitute sexual harassment – also prohibited by Morrison Public Schools.

Procedures Applicable to the Understanding of and Prevention of Harassment, Intimidation, and Bullying of Students

Students and Staff Education and Training: All staff will be provided with a copy of the district's policy on prevention of harassment, intimidation, and bullying of students. All students will be provided a summary of the policy and notice that a copy of the entire policy is available on request. Morrison Public Schools is committed to providing appropriate and relevant training to staff regarding identification of behavior constituting harassment, intimidation, and bullying of students and the prevention and management of such conduct. Students, like staff members, shall participate in an annual education program that sets out expectations for student behavior and emphasizes an understanding of harassment, intimidation, and bullying of students, the district's prohibition of such conduct, and the reasons why the conduct is destructive, unacceptable, and will lead to discipline. Students shall also be informed of the consequences of bullying conduct toward their peers.

Morrison Public Schools' Safe School Committee: The safe school committee has the responsibility of studying and making recommendations regarding unsafe conditions, strategies for students to avoid harm at school, student victimization, crime prevention, school violence, and other issues that interfere with or adversely affect the maintenance of safe schools. With respect to student harassment, intimidation, and bullying, the safe school committee shall consider and make recommendations regarding professional staff development needs of faculty and other staff related to methods to decrease student harassment, intimidation, and bullying and understanding and identifying bullying behaviors. In addition, the committee shall make recommendations regarding: identification of methods to encourage the involvement of the community and students in addressing conduct involving bullying; methods to enhance relationships between students and school staff in order to strengthen communication; and fashioning of problem-solving teams that include counselors and/or school psychologists. In accomplishing its objectives, the committee shall review traditional and accepted harassment, intimidation, and bullying prevention programs utilized by other states, state agencies, or school districts.

Student Reporting: Students are encouraged to inform school personnel if they are the victim of or a witness to acts of harassment, intimidation, or bullying.

Staff Reporting: An important duty of the staff is to report acts or behavior that the employee witnesses that appears to constitute harassing, intimidating, or bullying. Employees, whether certified or noncertified, shall encourage students who tell them about acts that may constitute intimidation, harassment, or bullying to complete a report form. For young students, staff members given that information will need to provide direct assistance to the student. Staff members who witness such events are to complete reports and to submit them to the employee designated by the assistant superintendent to receive them. Staff members who hear of incidents that may, in the staff member's judgment, constitute harassment, intimidation, or bullying, are to report all relevant information to the assistant superintendent or his/her designee.

Parental Responsibilities: Parents/guardians will be informed in writing of the district's program to stop intimidation, harassment, and bullying. An administrative response to a reported act of intimidation, harassment, or bullying may involve certain actions to be taken by parents. Parents will be informed of the program and the means for students to report bullying acts toward them or other students. They will also be told that to help prevent bullying at school they should encourage their children to:

1. Report bullying when it occurs;
2. Take advantage of opportunities to talk to their children about bullying;
3. Inform the school immediately if they think their child is being bullied or is bullying other students;
4. Watch for symptoms that their child may be a victim of bullying and report those symptoms; and
5. Cooperate fully with school personnel in identifying and resolving incidents.

Discipline of Students: In administering discipline, consideration will be given to alternative methods of punishment to insure that the most effective discipline is administered in each case. In all disciplinary action, teachers and administrators will be mindful of the fact that they are dealing with individual personalities. The faculty may consider consultation with parents to determine the most effective disciplinary measure.

In considering alternatives of corrective actions, the faculty/administration of the school district will consider those listed below. However, the school is not limited to these alternative methods, nor does this list reflect an order or sequence of events to follow in disciplinary actions. The board of education will rely upon the judgment and discretion of the administrator to determine the appropriate remedial or corrective action in each instance.

1. Conference with student
2. Conference with parents
3. In-school suspension
4. Detention
5. Referral to counselor
6. Behavioral contract
7. Changing student's seat assignment or class assignment
8. Requiring a student to make financial restitution for damaged property
9. Requiring a student to clean or straighten items or facilities damaged by the student's behavior
10. Restriction of privileges
11. Involvement of local authorities
12. Referring student to appropriate social agency
13. Suspension
14. Other appropriate disciplinary action as required and as indicated by the circumstances which may include, but is not limited to, removal from eligibility to participate or attend extracurricular activities as well as removal from the privilege of attending or participating in the graduation ceremony, school dances, prom, prom activities, and/or class trips.

Procedures Applicable to the Understanding of and Prevention of Harassment, Intimidation, and Bullying of Students: The following procedures will be used by any person for the filing, processing, and resolution of a reported incident of harassment, intimidation, bullying, or threatening behavior. The procedures are to be followed by the administration of the school district in an effort to determine the severity of the incident and the potential to result in future violence.

Definitions

1. “Harassment, intimidation, and bullying” means any gesture, written or verbal expression, electronic communication, or physical act that a reasonable person should know will harm another student, damage to the student’s property, or insult or demean any student or group of students in such a way as to disrupt or interfere with the school’s educational mission or the education of any student. Harassment, intimidation, and bullying include, but are not limited to, gestures, written, verbal, or physical acts, or electronic communications.
2. “Electronic communication” means the communication of any written, verbal, or pictorial information by means of an electronic device, including, but not limited to, a telephone, a cellular telephone or other wireless communication device, or a computer.

Procedures: The procedure for investigating reported incidents of harassment, intimidation, and bullying or threatening behavior, is as follows:

1. The matter should immediately be reported to the building principal. If the bullying involved an electronic communication, a printed copy of the communication as well as any identifying information such as email address or web address shall be provided to the building principal. 5. Upon completion of the investigation, the principal or superintendent may recommend that available community health care options be provided to the student, if appropriate. This may include information about the types of support services available to the student bully, victim, and any other students affected by the prohibited behavior. If such a recommendation is made, the administration shall request disclosure of any information that indicates an explicit threat to the safety of students or school personnel provided the disclosure of information does not violate the provisions or requirements of the Family Educational Rights and Privacy Act of 1974, the Health Insurance Portability and Accountability Act of 1996, Section 2503 of Title 12 of the Oklahoma Statutes, Section 1376 of Title 59 of Oklahoma Statutes, or any other state or federal laws relating to the disclosure of confidential information.

SEXUAL HARASSMENT

The policy of this school district forbids discrimination against any employee or applicant for employment on the basis of sex. The Morrison Board of Education will not tolerate sexual harassment by any of its employees. This policy applies to non-employee volunteers whose work is subject to the control of school personnel.

General Prohibitions

1. Unwelcome Conduct of a Sexual Nature

- A. Conduct of a sexual nature may include verbal or physical sexual advances, including subtle pressure for sexual activity; touching, pinching, patting, or brushing against; comments regarding physical or personality characteristics of a sexual nature; and sexually-oriented “kidding” “teasing”, double meanings, and jokes.
- B. Verbal or physical conduct of a sexual nature may constitute sexual harassment when the allegedly harassed employee has indicated, by his or her conduct that is unwelcome.
- C. An employee who has initially welcomed such conduct by active participation must give specific notice to the alleged harasser that such conduct is no longer welcome in order for any such subsequent conduct to be deemed unwelcome.

2. Sexual Harassment

For the purpose of this policy, unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature constitute sexual harassment if:

- A. Submission to the conduct is made either an explicit or implicit condition of employment;
- B. Submission to or rejection of the conduct is used as a basis for an employment decision affecting the harassed employee; or
- C. The conduct substantially interferes with an employee’s work performance, or creates an intimidating, hostile, or offensive work environment.

Specific Prohibitions

1. Administrators and Supervisors

- A. It is sexual harassment for an administrator or supervisor to use his or her authority to solicit sexual favors or attention from subordinates when the subordinate’s failure to submit will result in adverse treatment, or when the subordinate’s acquiescence will result in preferential treatment.
- B. Administrators and supervisors who either engage in sexual harassment or tolerate such conduct by other employees shall be subject to sanctions, as described below.

2. Non-administrative and Non-supervisory Employees

It is sexual harassment for a non-administrative and non-supervisory employee to subject another such employee to any unwelcome conduct of a sexual nature. Employees who engage in such conduct shall be subject to sanctions as described below.

Report, Investigation, and Sanctions

1. It is the express policy of the board of education to encourage victims of sexual harassment to come forward with such claims. This may be done through the Employee Grievance policy.
 - A. Employees who feel that administrators or supervisors are conditioning promotions, increases in wages, continuation of employment, or other terms or conditions of employment upon sexual favors, are encouraged to report these conditions to the appropriate administrator. If the employee's direct administrator or supervisor is the alleged offending person, the report will be made to the next higher level of administration or supervision, unless it is the superintendent who is the alleged offender. In which case, the complaint shall be referred to the board president.
 - B. Employees are also urged to report any unwelcome conduct of a sexual nature by supervisors or fellow employees if such conduct interferes with the individual's work performance or creates a hostile or offensive working environment.
 - C. Confidentiality will be maintained; however, absolute confidentiality cannot be guaranteed because of due process concerns that arise in sexual harassment investigations. No reprisals or retaliation will be allowed to occur as a result of the good faith reporting of charges of sexual harassment.
2. In determining whether alleged conduct constitutes sexual harassment, the totality of the circumstances, the nature of the conduct, and the context in which the alleged conduct occurred will be investigated. The superintendent has the responsibility of investigating and resolving complaints of sexual harassment.
3. Any employee found to have engaged in sexual harassment shall be subject to sanctions, including, but not limited to warning, suspension, or termination subject to applicable procedural and due process requirements.

GRIEVANCE/COMPLAINT PROCEDURE

The board of education wishes to make the school workplace as positive and productive for faculty and staff as possible. Therefore, the board hereby establishes a procedure for employees to have individual concerns or grievances relating to their terms and conditions of employment addressed in a professional and orderly fashion.

This procedure is designed to solve individual problems on as low a level as reasonable and as quickly as feasible in an attempt to prevent minor problems from becoming major ones. The final authority in resolving such grievances is the board of education.

REGULATION GRIEVANCE/COMPLAINT PROCEDURE

Purpose

The purpose of this procedure is to secure at the lowest possible level equitable solutions to issues that may arise with respect to an employee's terms and conditions of employment.

Definitions

1. A "grievance is a claim by an employee that there has been a violation, misinterpretation or misapplication of an established board policy or established district administrative regulation that has specifically affected that employee's terms and conditions of employment.

COMPUTER USE

The Morrison Board of Education believes that the availability of computers and computer technology will enhance the learning opportunities of our students and the teaching capabilities of our teachers. The board also believes that students and faculty members should be provided freedom in a safe and responsible manner to explore the world of technology and to benefit from the educational opportunities it provides. It is the policy of this board that equal access to educational opportunities be provided to all students and faculty. However, the privilege of using the district's computers may be revoked if any user is found to be in violation of the district's policies and regulations concerning proper computer use. The board recognizes that new technology also provides opportunities for some to violate the rights and privileges of others and such activity is strictly prohibited.

Technology shall include but not be limited to information technology, telecommunications technology, and implemental technology. Information technology shall include but not be limited to computers, computer hardware, scanners, multimedia material, facsimile, e-mail, computer software, CD ROM material or other magnetic media, computer simulations, video, the World Wide Web (WWW) or Internet, Listservs, multiuser domains and other technology used in distance learning or distance education. Telecommunications technology shall include but not be limited to local area networks and wide area networks. Implemental technology shall include but not be limited to implements, equipment, instruments, or devices that promote the technology education process and are employed in the science or study of the practical, industrial, or mechanical arts or applied sciences.

The board has directed the superintendent to develop rules, regulations, and procedures governing the use of computers and computer technology in this district. Such rules and regulations are incorporated into this policy and are a part of this policy. References to this policy shall include any rules and regulations attached to it or incorporated within it.

COMPUTER USE REGULATION

In accordance with the policy of the board of education, this regulation governs the use of computers and computer technology in this school district.

Personal computers not owned by the school district shall not be brought to school or used in school except with permission of the superintendent of the superintendent's designee.

School district computers and computer accessories will be used only by students and faculty members. School district patrons may be permitted to use school equipment only under certain circumstances as determined by the board of education. Permission to use school computers or other school technology is granted as a privilege that may be withdrawn for violation of this policy or for failure to follow the verbal or written instructions and direction of school faculty or system operators. All persons who use school district computers (users) will read and indicate understanding of any rules and procedures posted on classroom bulletin boards, computer bulletin boards, or computer operating procedures in either hardcopy (typed or written) or softcopy (recorded electronically within the computer or computer accessory) or specific class instructions.

Teachers or instructors of any class in which computers are used will establish written procedures for the use of computers and computer technology within the framework of that particular class and will insure that all members of the class read and understand such procedures.

Students and faculty using a school computer for the purpose of telecommunications with any other computer within the district or outside the district, private or commercial computer bulletin board, or any computer network such as Internet, will read and indicate an understanding of the rules and procedures governing such telecommunications and will adhere thereto.

Users will not upload or download any copyrighted material. It is the user's responsibility to determine if material is copyrighted. Failure to cite content accessed electronically is academic misconduct. Students or staff may be disciplined for failing to appropriately cite materials. Users will not copy school district computer software for any reason. Backup copies of computer software will be made only by authorized faculty members and will be maintained by the superintendent or the superintendent's designee.

Computer software will be installed into, or removed from, school district computers only by, or at the direction of, an authorized faculty member. No commercial software will be installed in or used on a district computer except in accordance with a user site license granted by the software developer. Students are prohibited from installing software of any kind or loading or reading personal data into a school district computer or computer system except as part of a class project or except as directed by authorized faculty members. Personally owned diskettes or tape cartridges or any other removable media will not be used in school computers except as authorized by a classroom teacher or other authorized school faculty member.

In addition to reading and adhering to any on-line rules and procedures, users will not use profanity or abusive language toward, or otherwise harass any other user or system operator of any bulletin board or telecommunications entity.

Telecommunications users will not log into any area that obviously contains pornographic material in any form. Users will not download any form of pornographic material. Students must obtain an Internet Access Conduct Agreement and have the form signed by the student's parent, legal guardian or other legal custodian before using any district computer that has telecommunication capabilities. It is the responsibility of the classroom teacher, instructor, or the appropriate faculty member to insure that such form is on file before a student is permitted to use computer telecommunications equipment. It is unlawful for a person to send an electronic message if the return address has been altered in order to disguise the point of origin or if the message contains false, malicious, or misleading information that purposely or negligently injures a person.

The superintendent or designee shall have access to all materials loaded or stored in the district's computers. Accordingly, no user of the district's computers shall be deemed to have a privacy right in any programs, files or data, including contents of business or personal e-mail, loaded or stored on district computers.

Violations of this policy by an employee of the school district may result in disciplinary proceedings including the termination of employment. Violations of this policy by students may result in disciplinary proceedings including suspension and the loss of user privileges. Violations of this policy by school patrons may result in the loss of user privileges.

No legitimate expectation of privacy exists for users of the school district's Internet service or computers. Activity may be monitored at any time and disciplinary action taken for inappropriate use.

Students and staff have an affirmative duty to notify the administration of sites that were inappropriately accessed so that the computers may be checked and inappropriate materials removed from the hard drive.

INTERNET AND OTHER COMPUTER NETWORKS ACCEPTABLE USE AND INTERNET SAFETY POLICY

The Morrison Public Schools district is pleased to make available to students and staff access to interconnected computer systems within the district and to the Internet, the worldwide network that provides access to significant educational materials and opportunities.

In order for the school district to ensure the continued accessibility of its computer network and the Internet, all students and staff must take responsibility for appropriate and lawful use of this access. Students and staff must understand that one person's misuse of the network and Internet access may jeopardize the ability of all students and staff to enjoy such access. While the school's teachers and other staff will make reasonable efforts to supervise student use of network and Internet access, they must have student cooperation in exercising and promoting responsible use of this access.

Below is the Acceptable Use and Internet Safety Policy ("policy") of the school district and the Data Acquisition Site that provides Internet access to the school district. Upon reviewing, signing, and returning this policy as directed, each student and staff member agrees to follow the policy and will be given the opportunity to enjoy Internet access at school. If a student is under 18 years of age, he or she must have his or her parent or guardian read and sign the policy. The school district shall not provide access to any student who, if 18 or older, fails to sign and submit the policy to the school as directed or, if under 18, does not return the policy as directed with the signatures of the student and his/her parent or guardian.

Listed below are the provisions of the agreement regarding computer network and Internet use. The district has designated a staff member to whom users may direct questions. If any user violates this policy, the user's access will be denied or withdrawn, and the user may be subject to additional disciplinary action.

Personal Responsibility: By signing this policy, the user agrees not only to follow the rules in this policy, but also to report any misuse of the network to the person designated by the school for such reporting. Misuse means any violations of this policy or any other use that is not authorized under this policy, and having the effect of harming another or his or her property.

Term of the Permitted Use: A student or staff member who submits to the school, as directed a properly signed policy and follows the policy to which she or he has agreed will have computer network and Internet access during the course of the school year only. Students and staff will be asked to sign a new policy each year during which they are students or staff members in the school district before they are given an access account.

Acceptable Uses: Educational Purposes Only. The school district is providing access to its computer networks and the Internet for educational purposes only. If the user has any doubt about whether a contemplated activity is educational, the user may consult with the person(s) designated by the school to help decide if a use is appropriate.

1. Unacceptable Uses of Network. Among the uses that are considered unacceptable and which constitute a violation of this policy are the following:
 - a. Uses that violate the law or encourage others to violate the law. Do not transmit offensive or harassing messages; offer for sale or use any substance the possession or use of which is prohibited by the school district's student discipline policy; view, transmit or download pornographic materials or materials that encourage others to violate the law; intrude into the networks or computers of others; and download or transmit confidential, trade secret information, or copyrighted materials. Even if materials on the networks are not marked with the copyright symbol, the user should assume that all materials are protected unless there is explicit permission on the materials to use them.
 - b. Uses that cause harm to others or damage to their property. For example, do not engage in defamation (harming another's reputation by lies); employ another's password or some other user identifier that misleads message recipients into believing that someone other than the user is communicating or otherwise using his/her access to the network or the Internet; upload a worm, virus, "Trojan horse", "time bomb", or other harmful form of programming or vandalism; participate in "hacking" activities or any form of unauthorized access to other computers, networks, or information systems.
 - c. Uses that jeopardize the security of student and staff access and of the computer network or other networks on the Internet. For example, do not disclose or share your password with others; do not impersonate another user.
 - d. Uses that are commercial transactions. Students, staff, and other users may not sell or buy anything over the Internet without prior permission from the Superintendent. The user should not give others private information about the user or others, including credit card numbers and social security numbers.
2. Netiquette. All users must abide by rules of network etiquette, which include the following:
 - a. Be polite. Use appropriate language. No swearing, vulgarities, suggestive, obscene, belligerent, or threatening language.
 - b. Avoid language and uses that may be offensive to other users. Do not use access to make, distribute, or redistribute jokes, stories, or other material that is based upon slurs or stereotypes relating to race, gender, ethnicity, nationality, religion, or sexual orientation.

- c. Do not assume that a sender of e-mail is giving his or her permission for the user to forward or redistribute the message to third parties or to give his/her e-mail address to third parties. This should be done only with permission or when the user knows that the individual would have no objection.
- d. Be considerate when sending attachments with e-mail (where this is permitted). Be sure that the file is not too large to be accommodated by the recipient's system and is in a format that the recipient can open.

Internet Safety

1. General Warning; Individual Responsibility of Parents and Users. All student users and their parents/guardians are advised that access to the electronic network may include the potential for access to materials inappropriate for school-aged students. Every user must take responsibility for his or her use of the computer network and Internet and stay away from these sites. Parents of minors are the best guides to materials to shun. If a student or staff member finds that other users are visiting offensive or harmful sites, he or she should report such use to the appropriate school designee.
2. Personal Safety. Be safe. In using the computer network and Internet, the user should not reveal personal information such as the user's home address or telephone number. The user should not use his/her real last name or any other information which might allow a person to locate the user without first obtaining the permission of a supervising teacher. Do not arrange a face-to-face meeting with someone "met" on the computer network or Internet without a parent's permission (if the user is under 18). Regardless of the user's age, the user should never agree to meet a person the user has only communicated with on the Internet in a secluded place or in a private setting.
3. "Hacking" and Other Illegal Activities. It is a violation of this policy to use the school's computer network or the Internet to gain unauthorized access to other computers or computer systems, or to attempt to gain such unauthorized access. Any use which violates state or federal law relating to copyright, trade secrets, the distribution of obscene or pornographic materials, or which violates any other applicable law or municipal ordinance, is strictly prohibited.
4. Confidentiality of Student Information. Personally identifiable information concerning students may not be disclosed or used in any way on the Internet without the permission of a parent or guardian or, if the student is 18 or over, the permission of the student. Users should never give out private or confidential information about themselves or others on the Internet, particularly credit card numbers and Social Security numbers. A supervising teacher or administrator may authorize the release of directory information, as defined by law, for internal administrative purposes or approved educational projects and activities.
5. Active Restriction Measures. The school, either by itself or in combination with the Data Acquisition Site providing Internet access, will utilize filtering software or other technologies to prevent users from accessing visual depictions that are (1) obscene, (2) pornographic, or (3) harmful to minors. The school will also monitor the online activities of users, through direct observation and/or technological means, to ensure that users are not accessing such depictions or any other material that is inappropriate for minors.

Internet filtering software or other technology-based protection systems may be disabled by a supervising teacher or school administrator, as necessary, for purposes of bona fide research or other educational projects being conducted by students age 17 and older.

The term “harmful to minors” is defined by the Commission Act of 1934 (47 USC Section 254 [h] [7]), as meaning any picture, image, graphic image file, or other visual depiction that

- taken as a whole and with respect to minors, appeals to a prurient interest in nudity, sex, or excretion;
- depicts, describes, or represents, in a patently offensive way with respect to what is suitable for minors, an actual or simulated sexual act or sexual contact actual or simulated normal or perverted sexual acts, or a lewd exhibition of the genitals;
- taken as a whole, lacks serious literary, artistic, political, or scientific value as to minors.

Privacy: Network and Internet access is provided as a tool for the user’s education. The school district reserves the right to monitor, inspect, copy, review and store at any time and without prior notice any and all usage of the computer network and Internet access and any and all information transmitted or received in connection with such usage. All such information files shall be and remain the property of the school district and no user shall have any expectation of privacy regarding such materials.

Failure to Follow Policy: The user’s use of the computer network and Internet is a privilege, not a right. A user who violates this policy, shall at a minimum, have his or her access to the computer network and Internet terminated, which the school district may refuse to reinstate for the remainder of the student’s enrollment or the staff member’s employment in the school district. A user violates this policy by his or her own action or by failing to report any violations by other users that come to the attention of the user. Further, a user violates this policy if he or she permits another to use his or her account or password to access the computer network and Internet, including any user whose access has been denied or terminated. The school district may also take other disciplinary action in such circumstances.

Warranties/Indemnification: The school district makes no warranties of any kind, either express or implied, in connection with its provision of access to and use of its computer networks and the Internet provided under this policy. It shall not be responsible for any claims, losses, damages, or costs (including attorney fees) of any kind suffered, directly or indirectly, by any user (or his or her parents or guardian) arising out of the user’s use of its computer networks or the Internet under this policy. By signing this policy, users are taking full responsibility for their own use, and the user who is 18 or older or the parent(s) or guardian(s) of a minor student are agreeing to indemnify and hold the school, the school district, the Data Acquisition Site that provides the computer and Internet access opportunity to the school district and all of their administrators, teachers, and staff harmless from any and all loss, costs, claims, or damages resulting from the user’s access to its computer network and the Internet, including but not limited to any fees or charges incurred through purchases of goods or services by the user.

The user or the parent(s) or guardian(s) of a minor student agree to cooperate with the school in the event of the school's initiating an investigation of a user's use of his or her access to its computer network and the Internet, whether that use is on a school computer or on another computer outside the school district's network.

Updates: Users, and if appropriate, their parents/guardians, may be asked from time to time to provide new or additional registration and account information or to sign a new policy reflecting developments in the law or technology or changes in district policy. Such information must be provided by the user (or his/her parents or guardian) or such new policy must be signed if the user wishes to continue to receive service. If after account information is provided, some or all of the information changes, the user must notify the person designated by the school to receive such information.

CODE OF CONDUCT FOR INTERNET AND OTHER COMPUTER NETWORK ACCESS

The purpose of providing Internet and other computer network access in this district is to promote the exchange of information and ideas with the global community. The following represents a guide to the acceptable use of the technology provided by this district. All network use must be consistent with the policies and goals of this school district. Inappropriate use of district technology will result in the loss of technology use, disciplinary action, and/or referral to legal authorities.

All Internet and other computer network users will be expected to abide by the generally accepted rules of network etiquette. These include, but are not limited to, the following:

1. Be polite. Messages should not be abusive to others.
2. Take pride in communications. Check spelling and grammar.
3. Use appropriate language. Do not swear or use vulgarities or any other inappropriate language, symbols, or pictures.
4. Protect password confidentiality. Passwords are not to be shared with others. Using another user's account or password or allowing such access by another may be permitted only with the approval of the supervising teacher or system administrator.
5. Do not reveal your personal address or telephone number or those of other persons. No student information protected by FERPA should be electronically transmitted or otherwise disseminated through the network.
6. Do not disguise the point of origin or transmission of electronic mail.
7. Do not send messages that contain false, malicious, or misleading information that may be injurious to a person or a person's property.
8. Illegal activities are strictly prohibited; transferring offensive or harassing messages; offering for sale or use any substance the possession or use of which is prohibited by the school district's staff and student policies; viewing, transmitting, or downloading pornographic materials or materials that encourage others to violate the law; intruding into the networks or computers of others; and downloading or transmitting confidential, trade secret information, or copyrighted materials.
9. The district technology is not to be used for playing multi-user or other network intensive games, commercial ventures, Internet relay chat lines, or downloading excessively large files.

10. No charges for services, products, or information are to be incurred without appropriate permission.
11. Do not use the network in such a way that you would disrupt the use of the network by other users.
12. Users shall respect the privacy of others and not read the mail or files of others without their permission. Copyright and licensing laws will not be intentionally violated.
13. Vandalism will result in cancellation of privileges. Vandalism is defined as any malicious attempt to harm or destroy hardware, data of another user, Internet, or any other agencies or other networks that may be accessed. This includes, but is not limited to, the uploading or creation of computer viruses.
14. Report security problems to the supervising teacher or system administrator.
15. Violators of this policy shall hold the district, including its employees and agents, harmless against any and all causes of action, damages, or other liability resulting from the willful or negligent violation of this policy.

INTERNET FILTERING – REGULATION

The Internet changes rapidly, making it impossible to filter all objectionable sites. Therefore, the staff role in supervising and monitoring student access to the Internet is critical. Additionally, staff members have the responsibility to monitor their own navigation on the Internet to avoid undesirable sites.

Filtering should be viewed as only one of a number of techniques used to manage student access to the Internet and encourage acceptable usage. Filtering should not be viewed as a foolproof approach to preventing access to inappropriate material and should be used in conjunction with:

- Educating students to be “net-smart”;
- Using recognized Internet gateways as a searching tool and/or homepage for students, in order to facilitate access to appropriate material;
- Using “Acceptable Use Agreements”;
- Using behavior management practices for which Internet access privileges can be earned or lost; and
- Appropriate supervision, either in person and/or electronically.

The placement of filters on district computers/computer systems is viewed as an exercise of the board’s ability to determine educational suitability of all material used in the schools.

Filters may be utilized with district schools to (1) block pre-selected sites, (2) block by word, (3) block entire categories like chat and newsgroups, and (4) through a pre-selected list of approved sites.

Criteria for Filtering of Objectionable Sites: Anything that falls under at least one of the following categories shall be blocked. This list may be update/modified as required.

Education Technology staff will review the site for inappropriateness. If the site meets the criteria for filtering, steps will be taken to block the site.

ILLEGAL USE OF E-MAIL MESSAGING

Thus, no staff member shall reveal any information concerning any child obtained in his or her capacity as a staff member, except as may be required in the performance of his or her contractual duties. However, such information may be furnished to the child's parent or guardian upon request.

REPORTING SUSPECTED CHILD ABUSE AND/OR NEGLECT

In accordance with Oklahoma law, any person is required to report suspected cases of physical abuse or neglect involving students to the statewide toll free hotline of the Department of Human Services. The statewide DHS hotline number is 1-800-522-3511. The board of education fully supports that requirement and has established this policy to facilitate such reporting.

Every teacher, support person, or other employee of this school district shall report any suspected physical, mental, or sexual abuse or neglect of any school student to the Department of Human Services by telephone. The employee shall also inform the building principal who will advise the superintendent that the report was made using Form FFG-E.

The reporting obligations under this section are individual, and no employer, supervisor or administrator of a person required to provide information pursuant to this sections shall discharge, or in any manner discriminate or retaliate against, any such person who in good faith provides such child abuse reports or information, testifies, or is about to testify in any proceeding involving child abuse or neglect; provided, that such person did not perpetrate or inflict such abuse or neglect. Any such employer, supervisor, or administrator who discharges, discriminates, or retaliates against such person shall be liable for damages, costs, and attorney fees. Any person who knowingly and willfully fails to promptly report any incident of child abuse may be reported to local law enforcement for criminal investigation and, upon conviction thereof, shall be guilty of a misdemeanor. Any person who knowingly and willfully makes a false report, or makes a report that the person knows lacks factual foundation may be reported by the Department of Human Services to local law enforcement for criminal investigation and, upon conviction thereof, shall be guilty of a misdemeanor.

Any person participating in good faith and exercising due care in the making of a report or any person who, in good faith and exercising due care, allows access to a child by persons authorized to investigate a report concerning the child shall have immunity from any liability, civil or criminal, that might otherwise be incurred or imposed. Any such participant shall have the same immunity from any liability with respect to participation in any judicial proceeding resulting from such report.

The school district shall post, in a clearly visible location in a public area of the school that is readily accessible to all students, a sign in English and Spanish that contains the toll-free number operated by the Department of Human Services.

USING COPYRIGHTED MATERIAL

It is the intent of the Morrison Public Schools to adhere to the provisions of the copyright law (Title 17 of the U.S. Code) as they affect the district and its employees. While the law identifies some “fair use” provisions, it also defines specific restrictions on the reproduction of copyrighted materials. A copyright is a property right; willful infringement of a copyright can result in criminal prosecution. It is the position of Morrison Public Schools that copyrighted materials, whether they are print or nonprint, will not be duplicated unless such reproduction meets “fair use” standards or unless written permission from the copyright holder has been received. Illegal copies of copyrighted materials may not be made or used on district equipment.

Congress has identified four criteria to be balanced in considering questions of “fair use”:

- The purpose and character of the use, including whether such is of a commercial nature or is for nonprofit educational purposes;
- The nature of the copyrighted work;
- The amount and substantiality of the portion used in relation to the copyrighted work as a whole; and
- The effect of the use upon potential market for or value of the copyrighted work.

In an effort to discourage violation of the copyright law and to prevent such illegal activities: All employees will be advised of this policy.

Employees who willfully disregard the district’s copyright position are in violation of board policy; they do so at their own risk and assume all liability responsibility. The legal and/or insurance protection of the district will not be extended to anyone who violates the fair use standards of this policy.

REGULATION USING COPYRIGHTED MATERIAL

In accordance with the policy of the board of education, the following regulation shall govern the use of copyrighted material by employees of this school district. Employees are urged to follow these guidelines and to instruct students in the importance of observing copyright provisions.

Television/Video and Audio

1. Off-air recordings of broadcast programs available to the general public without charge may be used once to meet instructional objectives in a classroom and repeated once for reinforcement during a 10-day period following the broadcast. If you are seeking written permission from the copyright owner to keep and use the program in teaching/learning activities, the recording may be retained an additional 35 days. If permission is not granted, the tape must be erased. Schools may not build library collections of off-air recordings without permission of copyright owners.
2. Programs recorded from pay television channels (HBO, Cinemax, Disney, etc.) do not qualify under “fair use” guidelines and may not be recorded or used in the classroom.
3. Teachers must file formal requests for off-air taping as principals and library media specialists may not make such requests on their behalf.
4. Off-air recordings of broadcast programs may be taped only once for or by a teacher, regardless of the number of rebroadcasts in the same or succeeding years.

5. Off-air recordings must meet the tests of spontaneity:
 - a. The copying is at the instance and inspiration of the individual teacher, and
 - b. The inspiration and decision to use the work and the moment of its use for maximum teaching effectiveness are so close in time that it would be unreasonable to expect a timely reply to a request for permission.
6. A videotape marked “For Home Use Only” may be used in school only in a regular instructional situation by a classroom teacher in a face-to-face setting to meet an instructional objective. It may not be used for entertainment, filler, or any other purpose without prior permission of the copyright owner. Face-to-face teaching exemptions apply if all of the following requirements are met:
 - a. Performance must be given by an instructor or student;
 - b. Performance must take place at a non-profit educational institution;
 - c. Performance must be part of a regular instructional activity limited to when instructor and students are in a face-to-face situation;
 - d. Performance takes place in a classroom or in a similar place devoted to instruction;
 - e. Performance must utilize a lawfully made copy.
7. Audio and videotapes on preview must not be copied and must be returned or purchased after a reasonable evaluation period.
8. Audio and videotapes may not be borrowed from other school districts and used in the classroom.
9. It is not legal to make a “shelf” or archival copy of any audio/visual material or duplicate any material on another format without written permission from the copyright owner.

Computer Software

1. All software purchased by the district for classroom, lab, media center, and office use remains the property of the district and may be used only in school-sponsored programs and activities. No employee or student may make a personal copy of any district-owned software.
2. Illegal copies of copyrighted software programs may not be made or used on school equipment.
3. Legal copies of copyrighted software programs must observe software licensing agreements of copyright holders and must be obtained and made by the Morrison Public Schools’ authorized representative(s).
4. One archival, or backup, copy of copyrighted software purchased by or donated to the office may be made, unless an applicable licensing agreement prohibits copying for any purpose.
5. Multiple loading of software is prohibited unless written permission has been obtained or unless the software is advertised as multi-load.
6. Use of software on a networked computer system is prohibited unless written permission is obtained or unless the networked version is used. The district software curriculum committee must approve instructional software and the director of data processing must approve administrative software.
7. Installation of public domain software is prohibited on any district computer.

8. Computer software developed by Morrison Public Schools employees and students on equipment owned by the district and/or during the school day is the sole property of the district. Distribution of such software by the individual without written permission of the district is strictly prohibited.
9. Software on preview must not be copied and must be returned or purchased after a reasonable evaluation period.
10. The superintendent or designee may sign district duplication rights agreements or licenses for software for schools within the district.
11. Employees of the district shall not encourage or allow any student to surreptitiously or illegally duplicate computer software or access any database or electronic bulletin board.
12. The data processing department is solely responsible for the duplication of all computer software licensed for district-wide use.
13. The legal, ethical, and practical problems caused by software piracy will be taught in all schools in the district.
14. A teacher or student may download to the printer bibliographic citations or full text of a document identified during a search of DIALOG, Wilsonline, etc., at the terms of the school's contract with the vendors specify. It is assumed that the user will require no more than 20-30 citations, will be using a legitimate password or subscription for invoice purposes, and has local approval to order, receive, and provide payment for a full-text document or citations.
15. Without the express consent of a database vendor, a teacher or student may not keep archival copies of downloaded works or make commercially available the downloaded material.

Print/Graphics

No charge shall be made to the student beyond the actual cost of the photocopying.

1. Prohibited copying
 - a. The copyright law specifically prohibits the reproduction of copyrighted, consumable materials such as workbooks, exercises, activity sheets, standardized tests and test booklets, answer sheets, and other such materials. Once the ditto ink is depleted from a purchased ditto master, no further copies are to be made.
 - b. Copying shall not
 - i. Substitute for the purchase of books, publishers' updates or reprints, or periodicals;
 - ii. Be directed by higher authority.
 - c. Copyrighted comic strip or cartoon characters may not be reproduced or altered for use on bulletin boards, hallways, cafeteria walls, publications or school uniform/clothing.

 - c. Multiple copies of nonconsumable materials for classroom use or discussion may be made by or for the teacher giving the course, provided that
 - i. The copying meets the tests of brevity, spontaneity, and cumulative effect as defined below;
 - ii. Each copy includes a notice of copyright; and
 - iii. No more than one copy per pupil in a course is made.

Definitions

1. Brevity
 - a. Poetry: (1) a complete poem of less than 250 words and if printed on not more than two pages, or (2) from a longer poem, an excerpt of not more than 250 words. (Copying may be expanded to permit completion of a stanza.)
 - b. Prose: (1) either a complete article, story, or essay of less than 2,500 words, or (2) an excerpt from any prose work of not more than 1,000 words or 10% of the work, whichever is less, but in any event a minimum of 500 words. (Copying may be expanded to permit completion of an unfinished paragraph.)
 - c. Illustration: one chart, graph, diagram, drawing, cartoon, or picture per book or per periodical issue.
 - d. "Special" works (picture books and certain works in poetry and prose that combine language with illustrations and which are less than 2,500 words in their entirety): such "special" works may not be reproduced in their entirety; however, two of the published pages of such a special work may be reproduced.
2. Spontaneity
 - a. The copying is at the request and inspiration of the individual teacher, and
 - b. The inspiration and decision to use the work and the moment of its use for maximum teaching effectiveness are so close in time that it would be unreasonable to expect a timely reply to a request for permission.
3. Cumulative Effect
 - a. The copying of the material is for only one course in the school in which the copies are made.
 - b. Not more than one short poem, article, story, essay, or two excerpts may be copied from the same author, nor more than three from the same collective work or periodical volume during one class term (with the exclusion of current news periodicals, newspapers, and current news sections of other periodicals).
 - c. No more than nine instances of such multiple copying shall be made for one course during one class term (with the exclusion of current news periodicals, newspapers, and current news sections of other periodicals.)

Facsimile Sharing of Prints and Graphics

1. Copyrighted material may be faxed to any person making a legal request.
2. After making a copy of a work and then faxing that copy, it must be destroyed. This complies with the regulation that only one copy of the original work may be in existence.
3. Any faxed material received can be used as resource/research sharing, but not as resource building. No additional copies of the received material may be made.
4. Received faxed material may not substitute for purchasing books or subscriptions.

Music/Theatre

Royalties must be paid, as specified by the publisher, for the public performance of copyrighted plays or music.

1. Permissible copying
 - a. Sheet music or plays may be copied only if a purchase order for the materials has been issued but the materials have not yet been received. Once the purchase materials are received, all other copies must be destroyed.
 - b. For academic purpose other than performance, multiple copies of excerpts of works may be made provided that

 - ii. No more than one copy per pupil in the class is made; and
 - iii. The copyright notice appears on the printed copy.
 - c. For academic purposes other than performance, a single copy of an entire performable unit (a section, movement, or aria) may be made for the teacher for scholarly research or in preparation to teach a class provided that
 - i. The work is confirmed by the copyright holder to be out of print;
 - ii. The work is unavailable except in a larger work; and
 - iii. The copyright notice appears on the printed copy.
 - d. Printed copies that have been purchased may be edited or simplified provided that the fundamental character of the work is not distorted or the lyrics, if any, altered or lyrics added, if none exist.
 - e. A single copy of recordings of performances by students may be made for evaluation or rehearsal purposes and may be retained by the educational institution or individual teachers.
 - f. A single copy of a sound recording (tape, disc, or cassette) of copyrighted music may be made from sound recordings owned by an educational institution or an individual teacher for the purpose of constructing aural exercises or examinations and may be retained by the educational institution or individual teacher. (This pertains only to the copyright of the music itself and not to any copyright that may exist in the sound recording.)
 - g. Copyrighted music recordings may be used as background for a media presentation only if the presentation is required for instructional purposes, and not for entertainment.
2. Prohibited copying
 - a. Copyrighted music recordings may not be reproduced from album to tape.
 - b. Music or plays may not be recorded from a broadcast.
 - c. Copying for the purpose of performance may not be done.

Internet

1. The rights of the owner of copyrighted material on the Internet are exactly the same as the rights for the owner of traditional materials.
2. The rights of the copyright holder include:
 - a. The sole right to make copies;
 - b. The sole right to distribute copies;
 - c. The sole right to produce derivative copies;
 - d. The sole right to perform or display a work publicly.
3. All the criteria for “fair use” apply to works on the Internet just as they apply to other materials.

Digital Transmission (Distance Education)

The Technology, Education, and Copyright Harmonization Act of 2001 (the TEACH Act) provides that it is not copyright infringement of teachers and students in an accredited, nonprofit educational institution to transmit performances and displays of copyrighted works as part of a course if certain conditions are met. If these conditions are not or cannot be met, use of the material will have to qualify as a fair use or permission from the copyright holder(s) must be obtained.

1. Teachers who want to incorporate works into digital transmission for instructional purposes must:
 - a. Avoid the use of commercial works that are sold or licensed for purposes of digital distance education.
 - b. Avoid the use of pirated works, or works where the teacher may otherwise have reason to know the copy was not lawfully made.
 - c. Generally limit the use of works to an amount and duration comparable to what would be displayed or performed in a live physical classroom setting.
 - d. Supervise the digital performance or display, make it an integral part of a class session, and make it part of a systematic mediated instructional activity. In other words, teachers should interactively use the copyrighted work as part of a class assignment in the distance education course. It should be made by, at the direction of, or under the supervision of the instructor; and directly related and of material assistance to the teaching content. It should not be an entertainment add-on or passive background/optional reading.
 - e. Use software tools provided by the district to limit access to the works to students enrolled in the course, to prevent downstream copying by those students, and to prevent the students from retaining the works for longer than a class session. The performance or display must be for, and technologically limited to, the students enrolled in the class.
 - f. Notify the students that the works may be subject to copyright protection and that they may not violate the legal rights of the copyright holder(s). A sample notice might read:

The materials on this course Web site are only for the use of the students enrolled in this course for purposes associated with this course and may not be retained or further disseminated.

2. The TEACH Act permits the transmission of the following:
 - a. Performances of all of a nondramatic literary or musical work. Non-dramatic literary works, as defined in the Act, exclude audiovisual works; thus, examples of permitted performances in which the entire works may be displayed and performed might include poetry or short story reading. Nondramatic musical works would include all music other than opera, music videos (because they are audiovisual), and musicals.
 - b. Reasonable and limited portions of any other performance. This would include all audiovisual works such as films and videos of all types, and any dramatic musical works excluded above.
 - c. Displays of any work in amounts comparable to typical face-to-face displays. This would include still images of all kinds.

Excluded from coverage are the uses of works primarily produced or marketed for in-class use in the digital distance education market; works the instructor knows or has reason to believe were not lawfully made or acquired; and textbooks, coursepacks, and other materials typically purchased by students individually.

3. Conversion from Analog to Digital

The TEACH Act specifically authorizes the digitization of print or other works in analog format under the following conditions:

- a. Only the amounts authorized to be performed or displayed may be digitized; and
- b. There is not digital version available to the district; or
- c. The digital version that is available to the district is technologically protected in a manner that prevents its use for authorized purposes.
- d. Such copies are retained only by the district and used only for the activities authorized by copyright law.

Permission for Use

Employees are encouraged to seek written permission for use of copyrighted materials which have instructional value but which cannot be purchased because of lack of funds or availability. A request for permission should include:

- Specific description of the item to be copied (title, author, edition, page numbers, frames, excerpts, etc.);
- Type of duplication and number of copies;
- Plans for usage and distribution of copies and the frequency of use.

Permissions Guide

1. Does the proposed use require permission from the copyright holder?

A. Is the work subject to copyright?

- Is it an original work of authorship?
- Is it fixed in a tangible medium of expression?
- Is it not an “idea, procedure, process, system, method of operation, concept, principle, or discovery, regardless of the form in which it is described, explained, illustrated, or embodied” in a copyrighted work?
- Is it not a work produced by a U.S. government employee in the scope of employment?
- Is it not a work the author has expressly made available for unrestricted copying, distribution, etc., effectively dedicated to the public domain?
- Has the copyright expired?

B. Is there a legal basis for use without permission?

- Is it fair use? To enhance the fair use argument, especially for coursepacks and web-based teaching materials, (1) use excerpts that are short and qualitatively insubstantial; (2) limit access to students enrolled in the course; (3) end access after the course; (4) do not use the material repeatedly for a course; (5) include the copyright notice and appropriate attributions; (6) obtain permission if easy to do so (cost and timing perspective).
- Is it a performance and/or display of a work in a face-to-face teaching setting?
- Is it a transmission of a permission and/or display of limited works to a classroom setting for teaching purposes?

2. Obtaining permission to use copyrighted works:

- Identify the copyright holder (best to confirm by phone or e-mail before seeking permission).
- Send written request for permission to use.
Allow several weeks lead-time.
Can the district pay a licensing fee/royalty?
- If license fee is too much or there is no response, be prepared to use a limited amount that qualifies for fair use, or use alternative materials.
- Obtain legal review/contract review for any license agreements other than the district’s permission forms.

ACTIVITY FUND OVERSIGHT

The board of education of the school district believes that the fiscal responsibility of governing a local school district, including oversight of all school funds, is a very important responsibility. Therefore, the board of education shall require that school activity organizations and associations have board of education oversight. However, in compliance with state law, the board of education shall sanction exemptions of organizations for parent teacher organizations or associations, or organizations for student achievement under conditions as follow:

1. The organization shall submit written application for exemption to the board of education.
2. The application shall include the name and purpose of the organization, the name and address or the president and treasurer, the requirements for membership and a financial statement of the organization.
3. The board may require a fiscal and/or performance audit of the organization.
4. Exemptions shall be made for no longer than the current fiscal year.

The board of education shall exercise control over all revenue received or collected from student or other extracurricular activities conducted in the school district or other monies placed in the district's activity fund. At the beginning of each fiscal year, and if needed during the fiscal year, the board shall approve all school activity fund sub accounts and all sub account fund-raising activities.

Handling Activity Fund Money

The board of education believes that a sound system of activity fund accounting will make possible an accurate determination of the cost of an activity, will facilitate auditing procedures, and will safeguard and protect both the funds and the persons responsible for handling the money. To that end, no collections; proceeds from any contract; proceeds from the sale, lease, or rental of property; or interest from student fund-raising shall be deposited or transferred to any sub account unless board approval has been given.

Activity Fund Drives

Public Involvement: The board shall assure that the public is informed concerning fund-raising activities through a public school board meeting and/or through other communication with the community.

Student and Teacher Involvement: All drives for funds in schools by school children and teachers shall be banned except for approved ticket sales and promotions. All drives for funds in the schools must be approved by the board of education.

Special Collections and Funds: Student and faculty will be allowed to take collections and solicit funds for flowers, or gifts, in such instances as the death of a student or a teacher. However, permission to take collections and/or solicit funds under such circumstances must be granted by the principal at the school site.

HANDLING SCHOOL ACTIVITY FUND MONEY

The board of education believes that a sound system of activity fund accounting will make possible an accurate determination of the cost of an activity, will facilitate auditing procedures, and will safeguard and protect both the funds and the persons responsible for handling the money.

BLOODBORNE PATHOGENS

The board recognizes that body fluids of any person may contain infectious or contagious bacteria or viruses, and that such bacterium or viruses may be spread from one person to another by accidental or careless handling of body fluids during sanitation or custodial work or the administration of emergency first aid.

The superintendent is directed to prepare regulations establishing proper procedures for handling body fluids during normal school day activities. Such procedures shall include methods for the handling and disposal of body fluids in school buildings and on school equipment and material. The district will make personal protective equipment available to employees for use in handling and disposing of body fluids.

The superintendent will also direct the identification of employees who could be reasonably anticipated as the result of their job duties to face contact with blood or other potentially infectious materials. Any employees so identified will be offered Hepatitis B vaccinations at district cost. Such vaccinations will be provided at a reasonable time and place, under the supervision of a licensed physician or health care professional and according to the latest recommendations of the U.S. Public Health Service.

School district employees who have had an exposure incident to body fluids will participate in a follow-up confidential medical evaluation documenting the circumstances of exposure, identifying and testing the source individual if feasible, testing the exposed employee's blood if the employee consents, post-exposure prophylaxis, counseling and evaluation of reported illnesses. Health care professionals must be provided specified information to facilitate the evaluation and their written opinion on the need for Hepatitis B vaccination following exposure. Information such as employee's ability to receive the Hepatitis B vaccine must be supplied to the employer. All diagnoses must remain confidential.

REGULATION HANDLING BLOODBORNE PATHOGENS

In accordance with the policy of the board of education, the following regulations and procedures contain guidelines for cleaning and disposal of body fluids. For the purpose of this regulation, the term "body fluids" shall include reference to blood, semen, feces, urine, and vomit, drainage from scrapes and cuts, and respiratory secretions such as nasal discharge.

1. Wear gloves. All personnel will wear disposable latex gloves during the cleanup and disposal of any of the body fluids listed above. When in doubt about material, assume it to be a body fluid. After any material is removed and disposed, the gloves should be destroyed or disposed.
2. If gloves are not available and contact with body fluids or open wounds is necessary, hands should be carefully washed as follows:
 - a. Use hot water and liquid soap with vigorous washing under running water for least 10 seconds.
 - b. Dry hands thoroughly with a paper towel. Use the paper towel to turn off the faucet and discard the towel in a proper container.
 - c. Use hand lotion if desired. CAUTION: Dry, cracked hands provide openings in the skin for bacteria to enter.
3. A 1 to 10 solution of household bleach and water may be stored in proper containers in areas where soap and water are not readily available. The solution may be used in cleaning body fluid spillage and hands if soap and water are not available following the cleanup.
4. Materials used in the cleanup of body fluids or suspected body fluids will be sealed in a plastic bag and discarded in appropriate trash containers. Soiled clothing articles, including sanitary napkins will be sealed in plastic bags and discarded. Other non-disposable cleaning items such as mops, towels, buckets and other items will be thoroughly rinsed in the bleach and water solution or carefully washed in hot, soapy water.
5. Personnel will use the same procedures for washing non-disposable cleaning equipment as for handling body fluids and soiled clothing or other personal apparel.
6. Sanitary absorbents may be used to clean spilled body fluids. The absorbent should be swept up or vacuumed. Carpets should be shampooed with a germicidal rug shampoo. Sweepings or used vacuumed bags should be sealed in a plastic bag for disposal. Brooms, dustpans and vacuum brushes should be washed in a solution of one part bleach to ten parts water.
7. Any liquid disinfectant used in cleaning floors, equipment or materials should be discarded in a suitable and appropriate sewage drain.
8. Clothing, towels and similar cleaning equipment or materials should be washed in hot, soapy water with one-half to one cup of bleach added to the wash water.
9. Custodians and sanitation personnel should wear latex disposable gloves during any cleaning operation where the possibility of encountering body fluid exists whether or not the fluid is touched.
10. Careful hand washing is the single most effective method of preventing the spread of contagious diseases. Hands should be washed in hot, soapy water before and after any cleanup operation.
11. A copy of these routine procedures for sanitation and hygiene when handling body fluids will be provided to each employee and must be followed when appropriate and necessary.

INCLEMENT WEATHER PROCEDURES

Notification to Parents and Students

In the event of inclement weather, the following radio and TV stations will carry necessary information regarding school closing or cancellation.

Television Stations: Channel 4 (Oklahoma City)
Channel 5 (Oklahoma City)
Channel 9 (Oklahoma City)

Notification to School Personnel

When conditions exist which may endanger the health and safety of students and school personnel, the school district will close until such conditions have passed.

A "phone tree" will be distributed each year to facilitate employee notification. If an employee is not contacted about the closing of school, he or she should contact the person on the phone tree who was to contact them.

FIRE DRILLS AND TORNADO DRILLS

Fire drill warnings will be one continuous ring of the bells. Teachers will prepare students as to exit procedures for fire drills. A fire evacuation plan will be posted in every room of the school.

Tornado drills will be a series of ring-pause, ring-pause bells. Teachers will prepare students as to actions to be executed for tornado drills. Procedures for fire and tornado drills are to be posted in each classroom.

EMERGENCY PLANS AND FIRE DRILLS

The principal and faculty members of each school building will develop and implement fire and emergency procedures for the orderly evacuation of all buildings upon the sounding of a distinctive audible signal designated as the fire alarm. Directions indicating where students are to go and the route to be taken should be posted in each classroom. These procedures will be developed to ensure the complete safety of children and other school personnel.

Fire and emergency drills will be practiced at least two times each semester of the school year. The first fire drill shall be conducted within the first 15 days of each semester. The second fire drill must occur after the first 30 days of each semester. All student and teachers shall participate.

Each drill shall be documented in writing at each school site. The records for each fire drill shall be preserved for at least three (3) years and made available to the State Fire Marshal or his designee upon request.

REGULATION EMERGENCY/EVACUATION PLAN

Purpose

The purpose of this emergency/evacuation plan is to clearly establish authority and responsibility for administrative actions when it becomes necessary to close the school, evacuate students, cancel school activities, delay school openings, and provide for early dismissal, or change transportation times and/or routes because of disasters, emergencies, inclement weather or other reasons.

Authority

The superintendent is responsible for administering the district emergency/evacuation plan. He/she will establish rules, regulations and procedures for administering and using the district's facilities, equipment, supplies and staff during an emergency or disaster. The superintendent shall be responsible for the general supervision and welfare of the students and staff of the school district. He/she is authorized to cancel or postpone social events, club meetings, sports events, adult programs and other activities that function in various buildings or grounds of the district. He/she is also authorized to work with other agencies as legally required or as necessary. In the superintendent's absence another person shall be delegated this authority.

District Protection

If an emergency occurs when school is in session, or at other times and under circumstances that would necessitate action by school district employees or that would involve the emergency use of school facilities, supplies or equipment, the superintendent is authorized to initiate the emergency/evacuation plan and to take other action required to protect the interests of the school district.

Legal Protection

The board shall provide liability insurance to include legal counsel to protect its agents, employees and board members for any liability resulting from supervision of students during an emergency.

Guidelines

1. The superintendent shall assume responsibility for protection of students, employees, facilities and equipment. Police, health and other agencies may be used as necessary.
2. The emergency and evacuation plans shall function through the administrative chain of command since emergencies require spontaneous decisions and immediate actions.
3. During a major emergency or disaster, deliver students to their homes as soon as such delivery can be organized and carried out in an efficient, orderly and safe manner. A higher authority (police or fire personnel) may direct all personnel to evacuate to a specific destination or to provide for mass care.
4. Students shall be released to parents as soon as such release can be made in an orderly, safe and nondisruptive manner in accordance with controlled release procedures.
5. The superintendents will provide for communication to the board president about the major emergency or disaster at the earliest possible time. Minor emergencies caused by inclement weather, temporary flooding, loss of utilities, employee or student disturbances, fire and bomb threats, accidents and breakdown of building equipment may be communicated through board administration advisement procedures.
6. The superintendent will coordinate activities with other agencies affected by the emergency through leadership, direction and communication.
7. Facilities and equipment will be maintained under district jurisdiction of school administrators until the primary responsibility of using them and the welfare of the students has been resolved.
8. Use district supplies, equipment, facilities and staff for the welfare of the students and staff. To the degree possible, a record should be kept for future accountability.
9. District responsibility for evacuation of students and employees of the district does not imply that district staff, facilities and equipment cannot be used in a cooperative effort with other agencies after the primary responsibility is complete. District students attending other schools shall be evacuated in accordance with plans prepared by those agencies and will be the responsibilities of those agencies.
10. Communicate with employees, related agencies and the public through an established emergency notification procedure.

EMERGENCY PLANS AND BOMB THREATS

The board of education takes very seriously any threat of violence to the school. Bomb threats of any kind will not be taken lightly. Quick and appropriate measures will be taken to deal with such circumstances. Appropriate discipline will be taken toward any student found to be responsible for such acts.

REGULATION BOMB THREAT PROCEDURES

In the event of a call or notice to the effect that a bomb has been placed anywhere on school grounds, the following procedures will be followed:

1. Immediate evacuation of the school and all buildings
2. If the fire and police departments do not receive the call originally, their immediate notification is required.
3. The fire department or the county sheriff's deputies shall conduct a search of the building and premises.
4. If a thorough search has been conducted and nothing found, the administrator in charge will notify the fire department personnel and sheriff deputies so that reentry will be permitted.
5. A request for investigation of the incident should be made to the county sheriff.

Any decisions concerning the dismissal of school and subsequent action after the above procedures have been followed is the prerogative of the superintendent.
